

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Richard Kapnick
DOCKET NO.: 08-22503.001-R-1
PARCEL NO.: 05-29-101-012-0000

The parties of record before the Property Tax Appeal Board are Richard Kapnick, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$118,239
IMPR: \$176,807
TOTAL: \$295,046

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction containing 4,357 square feet of living area. The dwelling is 61 years old. Features of the home include a partial unfinished basement, central air conditioning, two fireplaces and a three-car attached garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process. In support of this argument, the appellant submitted information on three comparable properties. The comparables consist of two-story masonry dwellings that range in age from 48 to 55 years old. The comparables have the same assigned neighborhood code as the subject property. The dwellings range in size from 4,292 to 4,810 square feet of living area. Features include full or partial basements either unfinished or finished as a recreational room. They have one or two fireplaces and either two or three-car attached garages. Comparables #1 and #2 have central air conditioning. The comparables have improvement assessments ranging from \$133,052 to \$185,710 or from \$30.14 to \$38.71 per square foot of living area. The subject's improvement assessment is \$176,807 or \$40.58 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$144,870 or \$33.25 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$295,046 was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four comparable properties. They consist of two-story frame and masonry dwellings that range in age from 67 to 81 years old. The comparables have the same assigned neighborhood code as the subject. The dwellings range in size from 3,595 to 4,580 square feet of living area. Features include full or partial basements either unfinished or finished as a recreational room. The comparables have one, two, three or four fireplaces and two or three-car garages. Comparables #1 and #4 have central air conditioning. The comparables have improvement assessments ranging from \$154,476 to \$202,923 or from \$42.97 to \$45.89 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties submitted a total of eight suggested comparable properties for the Board's consideration. The Board finds the comparables submitted by the appellant and the board of review are generally similar to the subject in location, age, size, exterior construction and features. The comparables have improvement assessments ranging from \$133,052 to \$202,923 or from \$30.14 to \$45.89 per square foot of living area. The subject's improvement assessment of \$176,807 or \$40.58 per square foot of living area falls within the range established by the most similar comparables contained in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Therefore, no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
