

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Imtiaz Ahmed Memon  
DOCKET NO.: 08-22513.001-C-1  
PARCEL NO.: 28-10-222-034-0000

The parties of record before the Property Tax Appeal Board are Imtiaz Ahmed Memon, the appellant, by attorney John P. Fitzgerald, of Fitzgerald Law Group, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 43,757**  
**IMPR: \$ 41,743**  
**TOTAL: \$ 85,500**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 19,026 square foot parcel of land improved with a 55-year old, one-story, masonry, commercial building used as a gas station/mini mart building. The improvement contains 1,008 square feet of gross building area.

The appellant argued that the market value of the subject property is not accurately reflected in the property's assessed valuation as the bases of this appeal.

In support of the market value argument, the appellant submitted an appraisal report of the subject property with an effective date of January 1, 2008. The appraisers estimated a market value for the subject of \$225,000, based upon development of the sales comparison approach to value. The appraisers inspected the subject on July 22, 2008. They developed a highest and best use as vacant, for commercial development, while the highest and best use as improved was its current use. The appraisers developed a sales comparison approach using four sale comparables. After making adjustments to the comparables, the appraisers opined a market value for the subject of \$225,000. Based upon this evidence, the appellant requested a reduction in market value.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's total assessment was \$104,160. The subject's assessment reflects a market value of \$274,411 using the Cook County Ordinance level of assessment for commercial class 5A property of 38%.

In support of the subject's market value, raw sales data was submitted for 13 properties via Costar Comps printouts. The data from the CoStar Comps service sheets reflect that the research was licensed to the assessor's office, but failed to indicate that there was any verification of the information or sources of data.

In addition, a grid which was partially handwritten was submitted reflecting minimal data on 22 properties, which were either gas stations or gas station/mini marts. The data included: property index number; street address; description of use; building and land sizes; value per square foot; and a column for comments. As a result of its analysis, the board requested confirmation of the subject's assessment.

After considering the arguments and reviewing the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. After submission of the parties' evidence, they waived their right to a hearing.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331Ill.App.3d 1038 (3<sup>rd</sup> Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2<sup>nd</sup> Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the Board concludes that the appellant has met this burden and that a reduction is warranted.

The Board finds the best evidence of the subject's market value to be the appellant's appraisal, which utilized one of the three traditional approaches to value in developing the subject's market value. The Board also finds the appraisal to be persuasive for the appraisers: have experience in appraising and assessing property; personally inspected the subject property; estimated a highest and best use for the property; and utilized market data in undertaking the sales comparison approach to value, while making adjustments to the comparables where necessary.

In contrast, the Board finds that the board of review submitted raw, unadjusted sales data and/or current valuations of properties.

Therefore, the Board finds that the subject property contained a market value of \$225,000. Since the market value of the subject has been established, the Cook County Ordinance level of assessment for Class 5A, commercial property of 38% will apply. Therefore, the Board finds that a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
