

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James Boris
DOCKET NO.: 08-22742.001-R-1
PARCEL NO.: 05-27-110-009-0000

The parties of record before the Property Tax Appeal Board are James Boris, the appellant(s), by attorney Edward Larkin, of Larkin & Larkin in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 56,588
IMPR.: \$ 253,195
TOTAL: \$ 309,783

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story, masonry single-family dwelling. The dwelling is 17 years old and contains 6,147 square feet of living area. Features include a partial finished basement, central air conditioning, three full and two half baths, and a two and one-half car garage. The subject has a classification code of 2-09 under the Cook County Real Property Assessment Classification Ordinance.

The appellant, via counsel, contends assessment inequity. In support of the assessment inequity argument, the appellant submitted information regarding three suggested comparable properties located in the subject's neighborhood with one comparable located on the subject property's Sidwell block. The suggested comparables are masonry, or frame and masonry constructed. They range in age from 64 to 81 years old and range in size from 5,413 to 6,662 square feet of living area. Features include: a full or partial finished basement for two properties, central air conditioning, and a two or three-car garage for two properties. These comparables have improvement assessments that range from \$25.05 to \$32.32 per square foot of building area. The subject's improvement assessment is \$253,195 or \$41.19 per square

foot of building area. Based on this evidence, the appellant requested a reduction in the subject property's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein its final assessment of \$309,783 was disclosed. To demonstrate the subject was correctly assessed, the board of review presented descriptions and assessment information regarding four suggested comparable properties consisting of two-story, masonry, single-family dwellings located within the subject property's neighborhood code. The suggested comparables range in age from 3 to 79 years old and range in size from 5,719 to 7,712 square feet of living area. Features include: a full finished basement, central air conditioning, three to six fireplaces, and a one to four-car garage. These properties have improvement assessments that range from \$27.15 to \$48.05 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, the appellant indicated that: the board of review's suggested comparables are not located on the subject's block or street; two of the board's suggested comparables are located in a different subarea; the appellant's comparables are located closer to the subject than the board of review's comparables; and, two of the appellant's comparables were reduced by the board of review.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal. The Board further finds the evidence in the record does not support a reduction in the subject's assessment.

The appellant argued assessment inequity as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data the Board finds the appellant has not demonstrated unequal treatment by clear and convincing evidence.

The record contains descriptions and assessment information regarding seven comparables submitted by the parties. The Board finds the board of review comparables #1, #2, and #3 are the most similar to the subject property in age, size, and amenities. These comparables have improvement assessments of \$42.48 to \$48.05 per square foot of building area. The subject has an improvement assessment of \$41.19 per square foot of building area which falls below the range established by the most similar comparables. Based on this record the Board finds a reduction in the subject's assessment based on assessment inequity is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
