

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mamie Case
DOCKET NO.: 08-22822.001-R-1
PARCEL NO.: 05-20-407-066-0000

The parties of record before the Property Tax Appeal Board are Mamie Case, the appellant(s), by attorney Jason T. Shilson, of O'Keefe Lyons & Hynes, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 44,732
IMPR: \$ 286,209
TOTAL: \$ 330,941

Subject only to the State multiplier as applicable.

ANALYSIS

The subject has 21,506 square feet of land, which is improved with a seven year old, two-story, frame, single-family dwelling. The appellant, via counsel, argued that there was unequal treatment in the assessment process of the subject's improvement as the basis of this appeal.

The appellant asserted that the county has incorrectly listed the subject's living area at 6,575 square feet. The appellant asserted that the subject has 6,228 square feet. In support of this assertion, the appellant submitted a letter signed by architect Timm T. Martin and an affidavit signed by the appellant. Both of the documents indicate the subject has 6,228 square feet; however, neither document indicates whether the 6,228 square feet is an interior or exterior measurement.

In support of the equity argument, the appellant submitted descriptive and assessment information for four properties

suggested as comparable to the subject. The comparables are described as two-story, frame, single-family dwellings. Additionally, the comparables range: in age from 15 to 109 years; in size from 5,785 to 6,074 square feet of living area; and in improvement assessments from \$30.58 to \$37.95 per square foot of living area. The comparables also have various amenities. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The Cook County Board of Review submitted its "Board of Review-Notes on Appeal," wherein the subject's improvement assessment of \$286,209 was disclosed. In support of the subject's assessment, the board of review submitted the property record cards for the subject and three properties suggested as comparable to the subject. The subject's property record card lists the subject as containing 6,575 square feet of living area. The comparables are described as two-story, frame, single-family dwellings. Additionally, the comparables range: in age from 12 to 94 years; in size from 6,225 to 6,870 square feet of living area; and in improvement assessments from \$43.85 to \$45.00 per square foot of living area. The comparables also have several amenities. Based on this evidence, the board of review requested confirmation of the subject's improvement assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board (the "Board") finds that it has jurisdiction over the parties and the subject matter of this appeal.

As to the subject's size, the Board finds the appellant failed to submit sufficient evidence to prove the subject contains 6,228 square feet of living area as neither document submitted by the appellant indicates whether the 6,228 square feet is based on an interior or exterior measurement. Therefore, the Board finds the subject contains 6,575 square feet as indicated on the subject's property record card.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of this appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Walsh v. Prop. Tax Appeal Bd., 181 Ill. 2d 228, 234 (1998) (citing Kankakee Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 131 Ill. 2d 1 (1989)); 86 Ill. Admin. Code § 1910.63(e). To succeed in an appeal based on lack of uniformity, the appellant must submit documentation

"showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property." Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 403 Ill. App. 3d 139, 145 (1st Dist. 2010); 86 Ill. Admin. Code § 1910.65(b). "[T]he critical consideration is not the number of allegedly similar properties, but whether they are in fact 'comparable' to the subject property." Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 403 Ill. App. 3d at 145 (citing DuPage Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 284 Ill. App. 3d 649, 654-55 (2d Dist. 1996)). After an analysis of the assessment data, the Board finds that the appellant has not met this burden.

The Board finds that Comparables #3, and #4 submitted by the appellant, and Comparable #1 submitted by the board of review were most similar to the subject in location, size, style, exterior construction, features, and/or age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$35.91 to \$44.88 per square foot of living area. The subject's improvement assessment of \$43.53 per square foot of living area is within the range established by the most similar comparables. Therefore, after considering adjustments and differences in both parties' comparables when compared to the subject, the Board finds that the subject's improvement assessment is equitable, and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
