

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Charles Scheisser
DOCKET NO.: 08-22878.001-R-1
PARCEL NO.: 09-35-216-029-0000

The parties of record before the Property Tax Appeal Board are Charles Scheisser, the appellant, by attorney Lisa A. Marino of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,692
IMPR.: \$59,145
TOTAL: \$69,837

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame construction containing 2,429 square feet of living area. The dwelling is 113 years old. Features of the home include a full finished basement, central air conditioning, a fireplace and a two-car detached garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story frame dwellings that range in age from 85 to 94 years old. The comparable dwellings range in size from 2,716 to 3,163 square feet of living area. Features include full basements, central air conditioning, single fireplaces and two car detached garages. One comparable has a finished recreation room area in the basement. The three comparables were listed as being located between 7 and 9 blocks from the subject property. The comparables have improvement assessments ranging from \$54,479 to \$68,523 or from \$19.45 to \$21.66 per square foot of living area. The subject's improvement assessment is \$59,145 or \$24.35 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment reflect \$50,377 or \$20.74 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame dwellings that range in age from 94 to 116 years old. The dwellings range in size from 2,270 to 2,513 square feet of living area. Features include full unfinished basements and either 2 or 2.5 car garages. Two of the comparables have central air conditioning and two comparables have a fireplace. These properties have improvement assessments ranging from \$55,796 to \$63,201 or from \$24.58 to \$25.88 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by the board of review were most similar to the subject in location, size and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$24.58 to \$25.88 per square foot of living area. The subject's improvement assessment of \$24.35 per square foot of living area is below the range established by the most similar comparables. The Board gave diminished weight to the appellant's comparables due to location and dissimilarities in size and features when compared to the subject property. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
