

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Andrew Crawford
DOCKET NO.: 08-23063.001-R-1
PARCEL NO.: 16-06-305-020-0000

The parties of record before the Property Tax Appeal Board are Andrew Crawford, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 11,424
IMPR.: \$ 64,576
TOTAL: \$ 76,000

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of an 8,400 square foot parcel improved with a 100-year-old, one and one-half story, single-family dwelling of stucco construction containing 2,803 square feet of living area and located in Oak Park Township, Cook County. Features of the residence include three full bathrooms, a partial-finished basement, central air-conditioning, a fireplace and a two-car detached garage.

The appellant appeared before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a one-page brief, numerous photographs of the subject property, the subject's plat of survey and a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of frame or stucco construction located within four blocks of the subject. The improvements range in size from 2,783 to 2,941 square feet of

living area and range in age from 87 to 104 years old. The comparables contain two and one-half, three or three and one-half bathrooms, a partial or full-unfinished basement and a multi-car garage. The improvement assessments range from \$20.61 to \$22.17 per square foot of living area.

At hearing, the appellant argued that the appellant's comparables are similar to the subject in size, age and location. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$80,691. The subject's improvement assessment is \$69,267 or \$24.71 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The four suggested comparables consist of two-story, single-family dwellings of frame construction with the same neighborhood code as the subject. The improvements range in size from 2,850 to 3,214 square feet of living area and range in age from 92 to 122 years old. The comparables contain two and one-half or three and one-half bathrooms, a partial or full-unfinished basement, a fireplace and a two-car garage. One comparable has central air-conditioning. The improvement assessments range from \$22.95 to \$23.56 per square foot of living area.

At hearing, the board's representative stated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds both parties submitted a total of eight properties suggested as comparable to the subject. The Board finds these properties similar to the subject in improvement size, age, exterior construction, amenities and location and they have improvement assessments ranging from \$20.61 to \$23.56 per square foot of living area. The subject's per square foot improvement assessment of \$24.71 falls above the range established by these properties. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square

foot improvement assessment is not supported by similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
