

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANTS: Scott & Susan Feldman  
DOCKET NO.: 08-23278.001-R-1  
PARCEL NO.: 05-06-200-024-0000

The parties of record before the Property Tax Appeal Board are Scott & Susan Feldman, the appellants, by attorney Lauren Cooper of Worssek & Vihon in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 112,348**  
**IMPR.: \$ 118,555**  
**TOTAL: \$ 230,903**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of frame and masonry construction. The dwelling is approximately 50 years old and contains 3,641 square feet of living area. Features of the home include a partial unfinished basement, central air conditioning, two fireplaces, and a two and one-half car garage. The subject property is located in Glencoe, New Trier Township, Cook County.

The appellants' appeal is based on unequal treatment in the assessment process. The appellants submitted information on seven suggested comparable properties described as two-story dwellings of frame and masonry construction. None of the comparable properties has the same assigned neighborhood code as the subject. The comparable dwellings are from 46 to 62 years old and contain from 2,907 to 3,790 square feet of living area. One comparable has a crawl-space foundation; three have partial finished basements; and three have unfinished basements, either full or partial. Each comparable has a garage, central air conditioning, and one or two fireplaces. The comparables have improvement assessments ranging from \$69,543 to \$108,015 or from \$22.80 to \$28.50 per square foot of living area. The subject's improvement assessment is \$118,555 or \$32.56 per square foot of living area. Based on this evidence, the appellants requested

that the subject's improvement assessment be reduced to \$94,302 or \$25.90 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$230,903 was disclosed. The board of review presented descriptions and assessment information on four suggested comparable properties consisting of two-story dwellings of frame and masonry construction. The comparable properties have the same assigned neighborhood code as the subject. The dwellings are from 41 to 60 years old and contain from 3,164 to 3,368 square feet of living area. Each comparable has a garage and one or two fireplaces. Three comparables have central air conditioning. One comparable has a partial unfinished basement, and three have full finished basements. These properties have improvement assessments ranging from \$108,041 to \$115,290 or from \$32.91 to \$35.56 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellants contend unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellants have not met this burden.

Both parties presented assessment data on a total of eleven suggested comparables. The Board finds none of the appellants' comparables had the same assigned neighborhood code as the subject. Consequently, the appellants' comparables received reduced weight in the Board's analysis. The Board finds the board of review comparables had the same assigned neighborhood code as the subject. In addition, they were very similar to the subject in story height and exterior construction and were generally similar in age and size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$108,041 to \$115,290 or from \$32.91 to \$35.56 per square foot of living area. The subject's improvement assessment of \$118,555 or \$32.56 per square foot of living area falls below the range established by the most similar comparables on a per square foot basis. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
