

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Doris Sternberg
DOCKET NO.: 08-23280.001-R-1
PARCEL NO.: 05-08-303-003-0000

The parties of record before the Property Tax Appeal Board are Doris Sternberg, the appellant, by attorney Richard D. Worssek of Worssek & Vihon in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 110,208
IMPR.: \$ 304,537
TOTAL: \$ 414,745

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction. The dwelling is approximately 45 years old and contains 4,507 square feet of living area. Features of the home include a partial finished basement, central air conditioning, a fireplace, and a two-car garage. The subject property is located in Glencoe, New Trier Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on twelve suggested comparable properties described as one or two-story dwellings of stucco, masonry, or frame and masonry construction. Only one of the comparable properties has the same assigned neighborhood code as the subject. The comparable dwellings are from 38 to 61 years old and contain from 4,165 to 4,894 square feet of living area. Two of the comparables have slab foundations; four have unfinished basements, either full or partial; and six have finished basements, either full or partial. The comparables have improvement assessments ranging from \$123,327 to \$245,712 or from \$28.83 to \$51.74 per square foot of living area. The subject's improvement assessment is \$304,537 or \$67.57 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$204,592 or \$45.39 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$414,745 was disclosed. The board of review presented descriptions and assessment information on four suggested comparable properties consisting of two-story dwellings of masonry or frame and masonry construction. The comparable properties have the same assigned neighborhood code as the subject. The dwellings are from 42 to 54 years old and contain from 4,249 to 4,908 square feet of living area. Each comparable has central air conditioning, from one to four fireplaces, and a garage. One comparable has a full finished basement, and three have unfinished basements, either full or partial. These properties have improvement assessments ranging from \$290,588 to \$354,848 or from \$68.39 to \$73.35 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of sixteen suggested comparables. The appellant's comparables #1 through #10 and #12 had a different assigned neighborhood code than the subject. In addition, the appellant's comparables #3 and #12 were one-story in design and comparables #5 and #7 had slab foundations that were unlike the subject's partial finished basement. Consequently, the appellant's comparables #1 through #10 and #12 received reduced weight in the Board's analysis. The Board finds the appellant's comparable #11 and the board of review comparables were very relatively similar to the subject in location, foundation, and design and were similar to the subject in size and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$245,712 to \$354,848 or from \$51.74 to \$73.35 per square foot of living area. The subject's improvement assessment of \$304,537 or \$67.57 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
