

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Andrew Shaw
DOCKET NO.: 08-23751.001-R-1
PARCEL NO.: 05-28-401-001-0000

The parties of record before the Property Tax Appeal Board are Andrew Shaw, the appellant, by attorney James E. Doherty, of Thomas M. Tully & Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$35,000
IMPR: \$170,292
TOTAL: \$205,292**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story dwelling of masonry construction containing 4,733 square feet of living area. The dwelling is 76 years old. Features of the home include a full unfinished basement and a 2-car garage. The neighborhood code of the subject property is 110. The property has a 12,500 square foot site and is located in Kenilworth, New Trier Township, Cook County.

The appellant's appeal is based on assessment equity and contention of law. The appellant submitted information on six comparable properties described as 2-story dwellings of masonry or frame and masonry construction that range in size from 4,261 to 4,710 square feet of living area. The dwellings range in age from 70 to 113 years. No information on neighborhood codes or proximity to the subject was provided for the comparables. Features of the comparables include full or partial basements, two with finished area, 1 or 2 fireplaces and 1, 2 or 3-car garages. Three comparables feature central air conditioning. The comparables have improvement assessments ranging from \$125,800 to \$161,547 or from \$28.49 to \$35.89 per square foot of living area. The subject's improvement assessment is \$170,292 or \$35.98 per square foot of living area. The appellant also submitted an appraisal report with a value conclusion of \$2,050,000 as of May

6, 2005, 32 months prior to the subject's assessment date of January 1, 2008. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$151,456 or \$32.00 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with 2-story dwellings of masonry construction that range in size from 4,084 to 4,862 square feet of living area. The dwellings range in age from 78 to 85 years. Each has the same neighborhood code as the subject property. Features of the comparables include full or partial basements, one with finished area, 1 or 2 fireplaces and 2-car garages. One comparable features central air conditioning. These properties have improvement assessments ranging from \$159,705 to \$183,376 or from \$37.72 to \$42.87 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant's contention of law argument was given little weight. The appellant argues the market values of comparable properties justified a reduction. The basis for this assertion was conversion of the assessments of the comparables to an estimated market value using the level of assessments in Cook County. Thus, this is no different from analyzing the "raw" assessments as discussed herein previously and no sales were provided to establish market value. The Board gave this argument little weight.

The appellant also contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the 10 comparables submitted by both parties are similar to the subject in age, size, style and exterior construction. These comparables had improvement assessments that ranged from \$28.49 to \$42.87 per square foot of living area. The subject's improvement assessment of \$35.98 per square foot of living area falls within the range established by the comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence

that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

The Board further finds the basis of this appeal was assessment inequity, so the Board gave no weight to the appellant's dated appraisal report.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
