

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tim Perry  
DOCKET NO.: 08-23764.001-R-1  
PARCEL NO.: 05-28-425-003-0000

The parties of record before the Property Tax Appeal Board are Tim Perry, the appellant, by attorney James E. Doherty, of Thomas M. Tully & Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$19,536  
IMPR.: \$36,758  
TOTAL: \$56,294**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a 2-story dwelling of frame construction containing 1,478 square feet of living area. The dwelling is 89 years old. Features of the home include a full unfinished basement, a fireplace and a 2-car garage. The neighborhood code of the subject property is 92. The property has a 7,400 square foot site and is located in Wilmette, New Trier Township, Cook County.

The appellant's appeal is based on assessment equity and contention of law. The appellant submitted information on three comparable properties described as 2-story dwellings of stucco or frame construction that range in size from 1,674 to 1,967 square feet of living area. The dwellings range in age from 65 to 94 years. No information on neighborhood codes was provided for the comparables but one comparable has an address on the same street as the subject. Features of the comparables include full or partial unfinished basements, fireplaces and 1, 1½, or 2-car garages. Two comparables feature central air conditioning. The comparables have improvement assessments ranging from \$38,069 to \$41,104 or from \$20.90 to \$23.47 per square foot of living area. The subject's improvement assessment is \$36,758 or \$24.87 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$34,289 or \$23.20 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with 2-story dwellings of frame construction that range in size from 1,506 to 1,596 square feet of living area. The dwellings range in age from 89 to 99 years. Each has the same neighborhood code as the subject property. Features of the comparables include full basements, one with finished area, and 1 or 2-car garages. One comparable has central air conditioning and one features a fireplace. These properties have improvement assessments ranging from \$40,219 to \$44,946 or from \$26.60 to \$28.16 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant's contention of law argument was given little weight. The appellant argues the market values of comparable properties justified a reduction. The basis for this assertion was conversion of the assessments of the comparables to an estimated market value using the level of assessments in Cook County. Thus, this is no different from analyzing the "raw" assessments as discussed herein previously and no sales were provided to establish market value. The Board gave this argument little weight.

The appellant also contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds comparables #3 and #4 submitted by the board of review most similar to the subject in location, size, style, exterior construction, age and features. Due to these similarities, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$26.60 to \$28.16 per square foot of living area. The subject's improvement assessment of \$24.87 per square foot of living area falls below the range established by the most similar comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
