

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ken Reber  
DOCKET NO.: 08-24006.001-R-1  
PARCEL NO.: 14-32-211-012-0000

The parties of record before the Property Tax Appeal Board are Ken Reber, the appellant, by attorney Mitchell L. Klein of Schiller Klein PC, in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$25,296  
**IMPR:** \$194,308  
**TOTAL:** \$219,604

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a three-story dwelling of masonry construction containing 5,075 square feet of living area. The dwelling is 7 years old. Features of the home include a full finished basement, central air conditioning, three fireplaces and a 3.5-car garage. The property has a 4,216 square foot site and is located in North Chicago Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on three comparable properties described as two or more story dwellings of masonry construction that ranged in size from 5,025 to 5,683 square feet of living area. The dwellings were 7 or 13 years old. Each comparable has the same neighborhood code as the subject property. Features of the comparables include a full basement, central air conditioning, two fireplaces and two or three-car garages. Two of the comparables have finished recreation rooms in the basement. The comparables have improvement assessments ranging from \$194,366 to \$220,216 or from \$37.43 to \$38.74 per square foot of living area. The subject's improvement assessment is \$228,883 or \$45.10 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$194,308 or \$38.29 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with three-story dwellings of masonry construction that range in size from 5,408 to 6,226 square feet of living area. The dwellings are 1 or 7 years old. None of the comparables have the same neighborhood code as the subject property. Features of the comparables include a full finished basement, central air conditioning, two or three fireplaces and two or three-car garages. These properties have improvement assessments ranging from \$104,489 to \$389,160 or from \$19.32 to \$71.73 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has met this burden.

The Board finds the appellant's comparables are the most similar to the subject in location, size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$37.43 to \$38.74 per square foot of living area. The subject's improvement assessment of \$45.10 per square foot of living area is above the range established by the best comparables in this record. The Board gave less weight to all four comparables submitted by the board of review. All four are listed as having a different neighborhood code than the subject property. In addition, comparable 1 is a partial assessment and is also newer than the subject property. Comparable 2 is newer than the subject, and comparable 3 is 22% larger than the subject property. Based on this record the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
