

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tony Armando  
DOCKET NO.: 08-24044.001-R-1  
PARCEL NO.: 01-22-103-013-0000

The parties of record before the Property Tax Appeal Board are Tony Armando, the appellant, by attorney Lisa A. Marino, of Marino & Associates, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 32,701  
**IMPR.:** \$ 103,820  
**TOTAL:** \$ 136,521

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 68,128 square foot parcel of land improved with a three-year old, two-story, masonry, single-family dwelling, which is owner-occupied. The improvement contains 7,160 square feet of living area as well as five full baths and two half-baths, a partial basement, two fireplaces, and a four-car garage.

The appellant argued that there was unequal treatment in the assessment process of the subject's improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptive and assessment data for three suggested comparables as well as black and white photographs and property characteristic printouts. The properties are improved with a two-story, single-family dwelling of masonry or frame and masonry exterior construction. They range: in bathrooms from three full and two half-baths to four full baths; in age from 18 to 23 years; in size from 5,185 to 6,664 square feet of living area; and in improvement assessments from \$12.00 to \$13.12 per square foot. Amenities include a full basement, two fireplaces, and a

three-car garage. The subject's improvement assessment is \$14.50 per square foot of living area. Based upon this analysis, the appellant requested a reduction in the subject's assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's total assessment was \$136,521. The board of review submitted descriptive and assessment data relating to four suggested comparables. The properties are improved with a two-story, masonry, single-family dwelling. They range: in bathrooms from four full and two half-baths to five full and two half-baths; in age from one to eight years; in size from 6,348 to 7,318 square feet of living area; and in improvement assessments from \$17.33 to \$18.75 per square foot. The properties include a partial or full basement and a four-car garage, while the properties also contain one or two fireplaces.

Moreover, the data indicated that properties #1 and #4 sold from February, 2005 to April, 2005, for prices that ranged from \$1,640,000 to \$3,150,000, or from \$247.32 to \$430.45 per square foot, respectively. As a result of its analysis, the board requested confirmation of the subject's assessment.

After considering the arguments as well as reviewing the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the data, the Board finds that the appellant has not met this burden.

The Board finds that comparables #1, #3 and #4 submitted by the board of review are most similar to the subject in style, exterior construction, improvement size, age and/or amenities. In analysis, the Board accorded most weight to these comparables. These comparables ranged in improvement assessments from \$17.33 to \$18.75 per square foot of living area. The subject's improvement assessment at \$14.50 per square foot is below the range established by these comparables.

Further, the Board accorded diminished weight to the remaining properties due to a disparity in improvement size and age.

Therefore, the Board finds that the appellant has not demonstrated that the subject is inequitably assessed and that the subject does not warrant a reduction in assessment.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
