

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Brian P. Liston
DOCKET NO.: 08-24383.001-R-1
PARCEL NO.: 18-07-105-021-0000

The parties of record before the Property Tax Appeal Board are Brian P. Liston, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 30,329
IMPR.: \$ 75,406
TOTAL: \$ 105,735

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction. The dwelling is 81 years old and contains 3,088 square feet of living area. Features of the home include a partial unfinished basement, a fireplace, and a one and one-half car garage. The subject is located in Hinsdale, Lyons Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four suggested comparable properties described as two-story dwellings of stucco or frame and masonry construction. The comparable properties have the same assigned neighborhood code as the subject. The comparable dwellings are from 66 to 95 years old and contain from 3,127 to 3,977 square feet of living area. Two comparables have full unfinished basements; and two have finished basements, either full or partial. Each comparable has one or two fireplaces, and three comparables have central air conditioning and a garage. The comparables have improvement assessments ranging from \$69,089 to \$91,251 or from \$22.10 to \$23.41 per square foot of living area. The subject's improvement assessment is \$75,406 or \$24.42 per square foot of living area. Based on this evidence, the appellant requested that the

subject's improvement assessment be reduced to \$70,289 or \$22.94 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$105,735 was disclosed. The board of review presented descriptions and assessment information on four suggested comparable properties consisting of two-story dwellings of masonry construction. The comparable properties have the same assigned neighborhood code as the subject. The dwellings are from 71 to 87 years old and contain from 2,320 to 3,360 square feet of living area. Each comparable has a garage, one or two fireplaces, and a full basement, one of which is finished. Two comparable dwellings have central air conditioning. These properties have improvement assessments ranging from \$71,243 to \$87,864 or from \$26.15 to \$30.71 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight suggested comparables. The appellant's comparables #2 and #4 were significantly larger than the subject and received reduced weight in the Board's analysis. The board of review's comparable #3 was considerably smaller than the subject and also received reduced weight. The Board finds the board of review's comparables #1, #2, and #4 were very similar to the subject in size, age, and exterior construction. The appellant's comparables #1 and #3, despite differences in exterior construction, were also very similar in size and age. Due to their similarities to the subject, these five comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$69,089 to \$87,864 or from \$22.10 to \$28.16 per square foot of living area. The subject's improvement assessment of \$75,406 or \$24.42 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
