

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chris Dosev
DOCKET NO.: 08-24441.001-R-1
PARCEL NO.: 12-21-111-014-0000

The parties of record before the Property Tax Appeal Board are Chris Dosev, the appellant(s), by attorney Ellen G. Berkshire, of Verros, Lafakis & Berkshire, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 12,155
IMPR.: \$ 64,496
TOTAL: \$ 76,651

Subject only to the State multiplier as applicable.

ANALYSIS

The subject has 12,155 square feet of land, which is improved with a 40 year old, two or three-story, masonry, 12 unit apartment building. The subject's improvement size is 7,072 square feet of building area, which equates to an improvement assessment of \$11.78 per square foot of building area. The appellant, via counsel, argued that there was unequal treatment in the assessment process of the subject's improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptive and assessment information for three properties suggested as comparable to the subject. The comparables are described as two-story, apartment buildings. Additionally, the comparables range: in age from 34 to 50 years; in size from 7,378 to 9,600 square feet of building area; and in improvement assessments from \$7.33 to \$9.12 per square foot of building area. The comparables also have various amenities. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The Cook County Board of Review submitted its "Board of Review-Notes on Appeal," wherein the subject's improvement assessment of \$83,317 was disclosed. In support of the subject's market value,

raw sales data was submitted for nine multi-family apartment properties. The data from the CoStar Comps service sheets reflect that the research was licensed to the assessor's office, but failed to indicate that there was any verification of the information or sources of data. The properties sold from April 2004, to March 2005, in an unadjusted range from \$550,000 to \$1,200,000 or from \$55,000 to \$100,000 per building unit. The properties contained buildings that ranged in size from 5,5528 to 8,500 square feet and in age from 29 to 47 years. As a result of its analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board (the "Board") finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of this appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Walsh v. Prop. Tax Appeal Bd., 181 Ill. 2d 228, 234 (1998) (citing Kankakee Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 131 Ill. 2d 1 (1989)); 86 Ill. Admin. Code § 1910.63(e). To succeed in an appeal based on lack of uniformity, the appellant must submit documentation "showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property." Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 403 Ill. App. 3d 139, 145 (1st Dist. 2010); 86 Ill. Admin. Code § 1910.65(b). "[T]he critical consideration is not the number of allegedly similar properties, but whether they are in fact 'comparable' to the subject property." Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 403 Ill. App. 3d at 145 (citing DuPage Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 284 Ill. App. 3d 649, 654-55 (2d Dist. 1996)). After an analysis of the assessment data, the Board finds that the appellant has met this burden.

The Board finds that all of the comparables submitted by the appellant were most similar to the subject in location, style, features, and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$7.33 to \$9.12 per square foot of living area. The subject's improvement assessment of \$11.78 per square foot of living area is above the range established by the most similar comparables. Therefore, after considering adjustments and differences in both parties' comparables when compared to the subject, the Board finds that the subject's improvement assessment is not equitable, and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
