

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Paul Malueg
DOCKET NO.: 08-24511.001-R-1
PARCEL NO.: 14-32-215-026-0000

The parties of record before the Property Tax Appeal Board are Paul Malueg, the appellant, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$21,737
IMPR: \$236,684
TOTAL: \$258,421**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 3-story dwelling of masonry construction containing 4,327 square feet of living area¹. The dwelling is 2 years old. Features of the home include a full finished basement², central air conditioning, 2 fireplaces and a 3-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as 2 or 3-story masonry dwellings that range in age from 1 to 16 years old. The comparable dwellings range in size from 3,832 to 5,739 square feet of living area. All comparables feature full basements, three of which are finished. All comparables have central air conditioning; 1, 2 or 3 fireplaces and 2, 3, 3½ or 4-car garages. The comparables have improvement assessments ranging from \$28.86 to \$43.38 per square foot of living area. The subject's improvement assessment is \$54.70 per square foot of living area using the appellant's size of 4,327 square feet of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

¹ The board of review claims the dwelling contains 4,768 square feet of living area. The appellant claims the dwelling contains 4,327 square feet of living area and submitted blueprints of the dwelling to support the claim.

² Based on the blueprints submitted by the appellant.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of 3-story masonry dwellings all one year old. The dwellings range in size from 4,558 to 4,840 square feet of living area. All comparables feature full finished basements, central air conditioning, 2 or 6 fireplaces and 2½-car garages. These properties have improvement assessments ranging from \$31.68 to \$62.17 per square foot of living area. The board of review also disclosed that comparable #2 was purchased in March 2007 for \$4,000,000 and comparable #3 was purchased in September 2007 for \$3,550,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Initially the Board finds the best evidence of size in the record is the appellant's blueprints of the dwelling. The Board finds the correct size of the subject is 4,327 square feet of living area and the Board finds the subject has 2 fireplaces.

Comparables #3 and #4 submitted by the appellant were 2-story dwellings. Comparable #2 featured an unfinished basement and was significantly larger than the subject. Comparables #2 and #4 were also older than the subject. Therefore, these comparables received less weight in the Board's analysis. The Board finds comparable #1 submitted by the appellant and all three comparables submitted by the board of review were most similar to the subject in size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$28.86 to \$62.17 per square foot of living area. The subject's improvement assessment of \$54.70 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
