

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: George Syregelas
DOCKET NO.: 08-24763.001-R-1
PARCEL NO.: 15-29-306-002-0000

The parties of record before the Property Tax Appeal Board are George Syregelas, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,383
IMPR.: \$ 35,137
TOTAL: \$ 41,520

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a multi-level dwelling of masonry construction. The dwelling is 35 years old and contains 2,116 square feet of living area. Features of the home include a partial finished basement, central air conditioning, a fireplace, and a two-car garage. The subject is located in Westchester, Proviso Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four suggested comparable properties described as multi-level dwellings of masonry or frame and masonry construction. The comparable properties have the same assigned neighborhood code as the subject. The comparable dwellings are from 23 to 41 years old and contain from 2,100 to 2,485 square feet of living area. Each comparable has a partial finished basement and a two-car garage, and three comparables have central air conditioning and a fireplace. The comparables have improvement assessments ranging from \$32,432 to \$37,689 or from \$14.29 to \$15.70 per square foot of living area. The subject's improvement assessment is \$35,137 or \$16.61 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$31,775 or \$15.02 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$41,520 was disclosed. The board of review presented descriptions and assessment information on four suggested comparable properties consisting of multi-level dwellings of masonry construction. The comparable properties are located in the same tax block as the subject property. Each comparable dwelling is 32 years old and contains 2,032 square feet of living area with a partial finished basement, central air conditioning, a fireplace, and a two-car garage. Each of these properties has an improvement assessment of \$34,684 or \$17.07 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight suggested comparables. The appellant's comparable #4 was newer and larger in size than the subject and received reduced weight in the Board's analysis. The Board finds the appellant's comparables #1 through #3 and the comparables submitted by the board of review were very similar to the subject in age, size, style, exterior construction, and most features. In addition, the board of review's comparables were located in the same tax block as the subject. Due to their similarities to the subject, these seven comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$32,432 to \$34,684 or from \$14.29 to \$17.07 per square foot of living area. The subject's improvement assessment of \$35,137 or \$16.61 per square foot of living area falls within the range established by the most similar comparables on a per square foot basis. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
