

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Rodden  
DOCKET NO.: 08-24847.001-R-1  
PARCEL NO.: 18-04-105-018-0000

The parties of record before the Property Tax Appeal Board are John Rodden, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:     \$ 7,888**  
**IMPR.:    \$ 91,893**  
**TOTAL:    \$ 99,781**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of frame construction containing 3,686 square feet of living area. The dwelling is seven years old. Features of the home include a full unfinished basement, central air conditioning, two fireplaces, and a two-car detached garage. The dwelling is located in La Grange, Lyons Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story frame or masonry dwellings that are either four or fifty-five years old. The comparables have the same assigned neighborhood code as the subject. The comparable dwellings range in size from 3,314 to 3,800 square feet of living area. Two comparables have full unfinished basements, and one has a partial finished basement. Each comparable has central air conditioning, a fireplace, and a two-car attached garage. The comparables have improvement assessments ranging from \$19.55 to \$23.07 per square foot of living area. The subject's improvement assessment is \$24.93 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$80,096 or \$21.73 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame dwellings that range in age from one to three years old. The comparables have the same assigned neighborhood and classification codes as the subject. The dwellings range in size from 3,044 to 3,735 square feet of living area. Three comparables have a full unfinished basement, and one has a partial finished basement. Each comparable has central air conditioning, a fireplace, and a garage. These properties have improvement assessments ranging from \$13.59 to \$25.01 per square foot of living area. Two of the comparable properties have improvement assessments that reflect new construction. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparable #3 was 48 years older than the subject and received reduced weight in the Board's analysis. The board of review comparables #3 and #4 had improvement assessments that reflect new construction, and, as a result, these comparables also received reduced weight. The Board finds the appellant's comparables #1 and #2 and the board of review's comparables #1 and #2 were most similar to the subject in age, size, style, and features. In addition, three of these four comparables were very similar in exterior construction. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$19.55 to \$25.01 per square foot of living area. The subject's improvement assessment of \$24.93 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
