

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mark Bergnach
DOCKET NO.: 08-24870.001-R-1
PARCEL NO.: 18-18-302-023-0000

The parties of record before the Property Tax Appeal Board are Mark Bergnach, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 21,196
IMPR.: \$ 110,062
TOTAL: \$ 131,258

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 4,340 square feet of living area. The dwelling is seven years old. Features of the home include a partial finished basement, central air conditioning, two fireplaces, and a four-car garage. The dwelling is located in Burr Ridge, Lyons Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story masonry or frame and masonry dwellings that range in age from 23 to 44 years old. The comparables have the same assigned neighborhood and classification codes as the subject. Three of the comparables are located in the same block or tax block as the subject property, and one is located four blocks from the subject. The comparable dwellings range in size from 4,450 to 4,532 square feet of living area. Each comparable has central air conditioning, two or three fireplaces, a garage, and a partial basement, two of which are finished. The comparables have improvement assessments ranging from \$19.61 to \$21.08 per square foot of living area. The subject's improvement assessment is \$25.36 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from five to nine years old. The comparables have the same assigned neighborhood and classification codes as the subject. The dwellings range in size from 3,979 to 4,185 square feet of living area. Each comparable has central air conditioning, one or two fireplaces, a garage, and a full basement, one of which is finished. These properties have improvement assessments ranging from \$29.20 to \$30.01 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables were much older than the subject, and the appellant's comparables #2 and #3 also differed in exterior construction. As a result, the appellant's comparables received reduced weight in the Board's analysis. The Board finds the comparables submitted by the board of review were very similar to the subject in age, style, size, exterior construction, and most features. Although the board of review's comparables were not located as close to the subject as the appellant's, they still had the same assigned neighborhood code as the subject property. Due to their similarities to the subject, the comparables submitted by the board of review received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$29.20 to \$30.01 per square foot of living area. The subject's improvement assessment of \$25.36 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
