

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kendra Browne
DOCKET NO.: 08-24874.001-R-1
PARCEL NO.: 18-07-408-028-0000

The parties of record before the Property Tax Appeal Board are Kendra Browne, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 8,976
IMPR.: \$ 93,062
TOTAL: \$ 102,038

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction containing 3,930 square feet of living area. The dwelling is 10 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace, and a two-car garage. The subject is classified as a class 2-08 residential property under the Cook County Real Property Assessment Classification Ordinance and is located in Willow Springs, Lyons Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story frame and masonry dwellings that range in age from 55 to 58 years old. The comparables have the same assigned neighborhood code as the subject, and one is located on the same tax block as the subject. The comparable dwellings range in size from 3,932 to 3,972 square feet of living area. One comparable has a crawl-space foundation; one has a partial finished basement; and one has a partial unfinished basement. Each comparable has central air conditioning, one or two fireplaces, and a garage. The comparables have improvement assessments ranging from \$19.58 to \$20.64 per square foot of living area. The subject's improvement assessment is \$23.68 per square foot of living area. Based on

this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of two-story frame and masonry dwellings that have the same assigned neighborhood and classification codes as the subject. One of the comparables is located on the same tax block as the subject property. The dwellings are either three or seven years old, and they range in size from 3,925 to 4,540 square feet of living area. Two comparables have a full unfinished basement, and one has a partial finished basement. Each comparable has central air conditioning, one or three fireplaces, and a two-car garage. These properties have improvement assessments ranging from \$24.75 to \$27.37 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of six equity comparables. The appellant's comparables were 45 to 48 years older than the subject and received reduced weight in the Board's analysis. The Board finds the comparables submitted by the board of review were most similar to the subject in age. They were also very similar in size, style, exterior construction, location, and most features. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$24.75 to \$27.37 per square foot of living area. The subject's improvement assessment of \$23.68 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
