

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jonathan Parker
DOCKET NO.: 08-24899.001-R-1
PARCEL NO.: 18-19-303-003-0000

The parties of record before the Property Tax Appeal Board are Jonathan Parker, the appellant, by attorney Joanne Elliott of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 15,840
IMPR.: \$ 58,167
TOTAL: \$ 74,007

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction. The dwelling is approximately 41 years old and contains 3,196 square feet of living area. Features include a partial unfinished basement, central air conditioning, two fireplaces, and a two-car garage. The subject property is located in Burr Ridge, Lyons Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three suggested comparable properties described as two-story dwellings of masonry or frame and masonry construction. The comparable properties have the same assigned neighborhood code as the subject. Two of the comparables are located on the same street as the subject property, and another comparable is located 0.16 of a mile from the subject. The comparable dwellings are from 37 to 40 years old and contain from 3,218 to 3,396 square feet of living area. Each comparable has a garage, central air conditioning, one or two fireplaces, and an unfinished basement, either full or partial. The comparables have improvement assessments ranging from \$47,998 to \$53,021 or from \$14.54 to \$15.81 per square foot of living area. The subject's improvement assessment is \$58,167 or \$18.20 per square foot of living area. Based on this evidence, the appellant requested that the

subject's improvement assessment be reduced to \$48,962 or \$15.32 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$74,007 was disclosed. The board of review presented descriptions and assessment information on four suggested comparable properties consisting of two-story dwellings of frame and masonry construction. The comparable properties have the same assigned neighborhood code as the subject. One of the comparables is located in the same tax block as the subject, and another comparable is located one-quarter mile from the subject. The dwellings are from 37 to 42 years old and contain from 2,891 to 3,265 square feet of living area. Each comparable has a garage, central air conditioning, and one or two fireplaces. Two of the comparables have partial unfinished basements, and two comparables have full finished basements. These properties have improvement assessments ranging from \$56,519 to \$61,405 or from \$18.40 to \$19.85 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of seven suggested comparables. The board of review comparables #3 and #4 were somewhat smaller than the subject and received reduced weight in the Board's analysis. The Board finds the appellant's comparables and board of review comparables #1 and #2 were very similar to the subject in location, age, size, story height, and features and four of these comparables had frame and masonry exterior construction like the subject. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$47,998 to \$61,405 or \$14.54 to \$19.85 per square foot of living area. The subject's improvement assessment of \$58,167 or \$18.20 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
