

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dave Waddick  
DOCKET NO.: 08-24930.001-R-1  
PARCEL NO.: 24-27-308-010-0000

The parties of record before the Property Tax Appeal Board are Dave Waddick, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 3,640  
**IMPR.:** \$ 18,590  
**TOTAL:** \$ 22,230

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a multi-level dwelling of masonry construction. The dwelling is 46 years old and contains 1,109 square feet of living area. Features of the home include a full finished basement and a two-car garage. The subject is located in Alsip, Worth Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four suggested comparable properties described as multi-level dwellings of masonry or frame and masonry construction. The comparable properties have the same assigned neighborhood code as the subject. The comparable dwellings are from seven to forty-seven years old and contain from 1,210 to 1,781 square feet of living area. Each comparable has a partial finished basement; three comparables have garages; and one has central air conditioning and a fireplace. The comparables have improvement assessments ranging from \$16,928 to \$23,601 or from \$13.25 to \$15.08 per square foot of living area. The subject's improvement assessment is \$18,590 or \$16.76 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$15,622 or \$14.09 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$22,230 was disclosed. The board of review presented descriptions and assessment information on four suggested comparable properties consisting of multi-level dwellings of masonry construction. The comparable properties have the same assigned neighborhood code as the subject. One of the comparables is located on the same block as the subject, and two other comparables are located one-quarter mile from the subject. The dwellings are from 41 to 47 years old and contain either 1,104 or 1,109 square feet of living area. Each comparable has a garage and a finished basement, either full or partial. These properties have improvement assessments ranging from \$18,590 to \$18,786 or from \$16.76 to \$16.95 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight suggested comparables. All of the comparables submitted were multi-level dwellings of masonry or frame and masonry design that had the same assigned neighborhood code as the subject. However, the Board finds the comparables submitted by the board of review were nearly identical to the subject in size and were very similar in age and most features. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$18,590 to \$18,786 or from \$16.76 to \$16.95 per square foot of living area. The subject's improvement assessment of \$18,590 or \$16.76 per square foot of living area is identical to the improvement assessment at the lower end of the range established by the best comparables. Based on the evidence presented, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
