

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Frederic Renold
DOCKET NO.: 08-25793.001-R-1
PARCEL NO.: 04-09-317-021-0000

The parties of record before the Property Tax Appeal Board are Frederic Renold, the appellant, by attorney Mitchell L. Klein of Schiller Klein, PC, in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$15,083
IMPR.: \$80,976
TOTAL: \$96,059

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story masonry dwelling containing 3,816 square feet of living area. The dwelling is 10 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a four-car garage. The property has a 14,503 square foot site and is located in Northbrook, Northfield Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on three comparable properties described as two-story dwellings of masonry or frame and masonry construction that ranged in size from 3,954 to 4,465 square feet of living area. The dwellings ranged in age from 9 to 19 years old. Each comparable has the same neighborhood code as the subject property. Features of the comparables include a full basement, central air conditioning, one or two fireplaces and two or three-car garages. One comparable has a finished recreation room in the basement. The comparables have improvement assessments ranging from \$74,492 to \$93,542 or from \$18.83 to \$20.95 per square foot of living area. The subject's improvement assessment is \$80,976 or \$21.22 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$76,954 or \$20.17 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with two-story dwellings of masonry construction that range in size from 3,881 to 4,463 square feet of living area. The dwellings range in age from 7 to 32 years old. Each has the same neighborhood code as the subject property. Features of the comparables include central air conditioning and a fireplace. Three of the comparables have full basements and one comparable has a partial basement. Two of the comparables have finished recreation rooms in the basement. Garages range from 2 to 3.5-car garages. These properties have improvement assessments ranging from \$92,096 to \$97,611 or from \$21.29 to \$24.21 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables numbers 1 and 2 and board of review comparables numbers 1 and 2 are the most similar to the subject in location, size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables ranged in size from 3,881 to 4,094 square feet of living area and in age from 7 to 19 years old. The comparables had improvement assessments that ranged from \$18.83 to \$24.21 per square foot of living area. The subject's improvement assessment of \$21.22 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
