

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Corey Meyer
DOCKET NO.: 08-25900.001-R-1
PARCEL NO.: 01-19-301-011-0000

The parties of record before the Property Tax Appeal Board are Corey Meyer, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 26,606
IMPR.: \$ 94,770
TOTAL: \$ 121,376

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame construction containing 5,832 square feet of living area. The dwelling is seven years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace, and a three-car attached garage. The subject is classified as a class 2-09 residential property under the Cook County Real Property Assessment Classification Ordinance and is located in Barrington, Barrington Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame or stucco dwellings that are located on the same tax block as the subject. The comparable dwellings are seven years old, and they range in size from 5,312 to 6,002 square feet of living area. Each comparable has a full unfinished basement, central air conditioning, a fireplace, and a three-car attached garage. The comparables have improvement assessments ranging from \$10.26 to \$16.30 per square foot of living area. The subject's improvement assessment is \$17.48 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$84,331 or \$14.46 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame dwellings that range in age from four to twenty-four years old. The comparables have the same assigned neighborhood and classification codes as the subject, and two are located on the same tax block as the subject. The dwellings range in size from 5,312 to 5,824 square feet of living area, and one is described as being of deluxe quality. Three comparables have a full unfinished basement, and one has a partial finished basement. Each comparable has central air conditioning, one to three fireplaces, and a garage. These properties have improvement assessments ranging from \$17.80 to \$22.01 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

Both parties presented assessment data on a total of eight equity comparables. The board of review's comparable #4 was 17 years older than the subject and comparables #1 through #3 were somewhat smaller than the subject. As a result, the board of review's comparables received reduced weight in the Board's analysis. The appellant's comparable #2 was also somewhat smaller than the subject and also received reduced weight. The Board finds the appellant's comparables #1, #3, and #4 were most similar to the subject in size. These comparables were also very similar in style, location, age, and features. In addition, the appellant's comparables #3 and #4 were very similar in exterior construction as well. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$10.26 to \$16.30 per square foot of living area. The subject's improvement assessment of \$17.48 per square foot of living area falls above the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
