

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kevin Scanlon  
DOCKET NO.: 08-25933.001-R-1  
PARCEL NO.: 22-32-112-013-0000

The parties of record before the Property Tax Appeal Board are Kevin Scanlon, the appellant, by attorney Mitchell L. Klein, of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$30,224  
**IMPR.:** \$ 0  
**TOTAL:** \$30,224

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 28,923 square foot parcel of unimproved land. The appellant, via counsel, argued that there was unequal treatment in the assessment of the land as the basis of this appeal.

In support of the land equity argument, the appellant submitted a written statement, as well as assessment information, on a total of four properties suggested as comparable to the subject. The data, in its entirety, reflects that all four of the properties are class 1 property as designated by the county assessor. The suggested comparables range in lot size from 50,397 to 84,942 square feet and are assessed at a land unit price ranging between \$2.00 and \$3.00 per square foot. The subject property has a land unit price of \$4.75 per square foot. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's land assessment of \$30,224, or a land unit price of \$4.75 per square foot, was disclosed. In support of the

subject's assessment, the board submitted equity comparables on ten properties suggested as comparable. They range in lot size from 14,050 to 54,014 square feet and are assessed at a land unit price of \$5.00 per square foot. The comparables are the same class as the subject property and are located in the subject's neighborhood. The board of review also submitted market data for nine properties in the subject's township. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of 14 properties suggested as comparable for the Board's consideration. The Board finds the board of review's ten comparables most similar to the subject as they are most similar in class, lot size and location. All ten of these properties have a land unit price of \$5.00 per square foot, while the subject's land unit price is \$4.75 per square foot. Therefore, the Board finds that the appellant has not proven by clear and convincing evidence that the subject is inequitably assessed and no reduction in its assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
