

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Janusz and Grazyna Majdzik
DOCKET NO.: 08-26006.001-R-1
PARCEL NO.: 03-22-406-005-0000

The parties of record before the Property Tax Appeal Board are Janusz and Grazyna Majdzik, the appellants, by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 14,256
IMPR.: \$ 31,216
TOTAL: \$ 45,472

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 67 year old, two-story, single-family dwelling of frame and masonry construction. It contains 3,286 square feet of living area and is situated on a 29,700 square foot lot. Features of the dwelling include a two-car attached garage, a fireplace, and three bathrooms.

The appellants submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this claim, the appellants submitted information regarding three suggested comparables located within two-and-three-quarters of a mile from the subject property. The suggested comparables are described as two-story, frame or masonry, single-family dwellings that range in age from 77 to 99 years old and range in size from 2,496 to 3,196 square feet of living area. Features include a two-car or a three-and-a-half-car garage, one or two fireplaces, and a full basement. These comparables have improvement assessments that range from \$5.97 to \$8.31 per square foot of living area. The subject's

improvement assessment is \$9.50 per square foot of living area. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal, wherein the subject's assessment of \$45,472 was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four suggested comparable properties located in the subject property's subarea with two located within one-quarter mile of the subject. The suggested comparables consist of two-story, frame and masonry, single-family dwellings that range in age from six to 11 years old and range in size from 3,019 to 4,046 square feet of living area. Features include a partial or a full basement, a two-car or a two-and-a-half-car garage, and one-and-a-half or two-and-a-half bathrooms. These properties have improvement assessments that range from \$12.89 to \$13.58 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellants contend unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of seven comparable properties for the Board's consideration. The Board finds comparables #1, #2 and #3 submitted by the board of review were most similar to the subject in location, size, and style. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$12.89 to \$13.58 per square foot of living area. The subject's improvement assessment of \$9.50 per square foot of living area is below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and no reduction in the subject's assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d. 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the

basis if the evidence. For the foregoing reasons, the Board finds that the appellants have not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
