

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert S. Anderson
DOCKET NO.: 08-26345.001-R-1
PARCEL NO.: 03-23-312-004-0000

The parties of record before the Property Tax Appeal Board are Robert S. Anderson, the appellant, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$14,400
IMPR.: \$53,256
TOTAL: \$67,656**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction containing 3,189 square feet of living area. The dwelling is 22 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a two-car garage. The property is located in Prospect Heights, Wheeling Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story masonry or frame and masonry dwellings that were 21 or 23 years old. The comparable dwellings range in size from 2,919 to 3,358 square feet of living area. Features include full or partial unfinished basements, central air conditioning, a fireplace, and a two-car or three-car garage. The comparables have improvement assessments ranging from \$42,300 to \$51,646 or from \$13.69 to \$15.38 per square foot of living area. The subject's improvement assessment is \$53,256 or \$16.70 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$46,910 or \$14.71 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$67,656 was disclosed. The board of review presented descriptions and

assessment information on four comparable properties consisting of two-story frame and masonry dwellings that range in age from 18 to 23 years old. The dwellings range in size from 2,850 to 3,377 square feet of living area. Features include full or partial unfinished basements, central air conditioning, a fireplace and a two-car or three-car garage. These properties have improvement assessments ranging from \$49,878 to \$60,807 or from \$17.10 to \$18.41 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of seven equity comparables to support their respective positions. The Board finds all of the comparables submitted by both parties have varying degrees of similarity and dissimilarity to the subject property. The comparables have improvement assessments that range from \$42,300 to \$60,807 or from \$13.69 to \$18.41 per square foot of living area. The subject's improvement assessment of \$53,256 or \$16.70 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the appellant disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence

that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
