

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Steve Pontikes
DOCKET NO.: 08-27323.001-R-1
PARCEL NO.: 13-25-136-047-0000

The parties of record before the Property Tax Appeal Board are Steve Pontikes, the appellant, by attorney Lisa A. Marino, of Marino & Associates, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 5,328
IMPR.: \$ 19,204
TOTAL: \$ 24,532

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 1,850 square foot parcel of land improved with a 107-year old, one and one-half story, frame, single-family dwelling. The improvement contains 1,159 square feet of living area as well as a full basement and one bathroom.

The appellant's attorney argued that there was unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptive and assessment data for three suggested comparables located within a six-block radius of the subject. The properties were improved with a one and one-half story or two-story, single-family dwelling with frame exterior construction. They range: in age from 114 to 121 years; in bathrooms from one full bath to one full and one half-baths; in size from 1,004 to 1,613 square feet of living area; and in improvement assessments from \$12.00 to \$12.21 per square foot. Amenities include a full basement a two-car garage. The subject's improvement assessment is \$16.57 per square foot of living area. Based upon this analysis, the appellant requested a reduction in the subject's assessment.

At hearing, the appellant's attorney asserted that the appellant's comparable #3 was most similar to the subject.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's total assessment was \$24,532. The board of review submitted descriptive and assessment data relating to four suggested comparables located within the subject's subarea. The properties are improved with a one and one-half story, frame, single-family dwelling. They range: in bathrooms from one full to two full and one half-baths; in age from 98 to 116 years; in size from 1,104 to 1,304 square feet of living area; and in improvement assessment from \$17.20 to \$22.87 per square foot. Amenities include a full basement, while properties #1, #3 and #4 also include garage area.

In addition, the board's analysis reflected that properties #1 and #4 sold from April, 2005, to September, 2005 for a value from \$351,000 to \$415,000, respectively. As a result of its analysis, the board requested confirmation of the subject's assessment.

At hearing, the board of review's representative testified that he has no personal knowledge of how the assessor determines neighborhood codes. However, he stated that to his personal knowledge the definition of an assessor's subarea is the second level breakdown of area after a township area designation. Lastly, he stated that he had no personal knowledge as to whether the sales of the board's properties #1 and #4 were arm's length transactions.

After considering the arguments and testimony as well as reviewing the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the data, the Board finds that the appellant has not met this burden.

The Board finds that comparable #3 submitted by the appellant as well as comparables #1, #3 and #4 submitted by the board of review are most similar to the subject in style, improvement size, age, and/or amenities. In analysis, the Board accorded most weight to these comparables. These comparables ranged in improvement assessments from \$12.21 to \$22.87 per square foot of living area. The subject's improvement assessment at \$16.57 per square foot is within the range established by these comparables.

The Board accorded diminished weight to the remaining properties due to a disparity in improvement exterior construction, improvement size and/or age.

As a result of this analysis, the Board finds that the appellant has not adequately demonstrated that the subject was inequitably assessed by clear and convincing evidence and that a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
