

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael T. Walsh
DOCKET NO.: 08-27485.001-I-1 through 08-27485.003-I-1
PARCEL NO.: See Below

The parties of record before the Property Tax Appeal Board are Michael T. Walsh, the appellant, by attorney John P. Fitzgerald, of Fitzgerald Law Group, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

DOCKET NO	PARCEL NUMBER	LAND	IMPRVMT	TOTAL
08-27485.001-I-1	25-31-123-005-0000	30,346	18,916	\$49,262
08-27485.002-I-1	25-31-123-020-0000	9,787	13,086	\$22,873
08-27485.003-I-1	25-31-123-021-0000	8,477	388	\$8,865

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of three parcels of land improved with a one-story, masonry, industrial complex consisting of three buildings. The improvements range in age from 29 to 43 years and contain 20,508 square feet of gross building area inclusive of 18.5% total office space. The land size is 67,516 square feet or 1.55 acres.

The appellant argued that the market value of the subject property is not accurately reflected in the property's assessed valuation as the bases of this appeal.

In support of the market value argument, the appellant submitted an appraisal report of the subject property with an effective date of January 1, 2008. The appraisers estimated a market value for the subject of \$225,000, based upon development of the sales comparison approach to value. The appraisers inspected the subject on October 8, 2008. They developed a highest and best use as vacant, for industrial development, while the highest and best use as improved was its current use. The appraisers

developed a sales comparison approach using four sale comparables. After making adjustments to the comparables, the appraisers opined a market value for the subject of \$225,000. Based upon this evidence, the appellant requested a reduction in market value.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's total assessment was \$120,072. The subject's assessment reflects a market value of \$333,531 using the Cook County Ordinance level of assessment for industrial class 5B property of 36%.

In support of the subject's market value, raw sales data was submitted for 7 properties. The properties are designated as industrial/warehouse, industrial/distribution, or industrial/manufacturing facilities. The data from the CoStar Comps service sheets reflect that the research was licensed to the assessor's office, but failed to indicate that there was any verification of the information or sources of data. The properties sold from July, 2004, to March, 2009, for prices that reflected an unadjusted range from \$12.50 to \$42.42 per square foot of building area. The properties contained industrial buildings that ranged in size from 12,375 to 23,000 square feet of building area.

Moreover, the board of review's memorandum stated that the data was not intended to be an appraisal or an estimate of value and should not be construed as such. The memorandum indicated that the information provided therein had been collected from various sources that were assumed to be factual and reliable; however, it further indicated that the writer hereto had not verified the information or sources and did not warrant its accuracy. As a result of its analysis, the board requested confirmation of the subject's assessment.

After considering the arguments and reviewing the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. After submission of the parties' evidence, they waived their right to a hearing.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331Ill.App.3d 1038 (3rd Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the Board concludes that the appellant has met this burden and that a reduction is warranted.

The Board finds the best evidence of the subject's market value to be the appellant's appraisal, which utilized one of the three

traditional approaches to value in developing the subject's market value. The Board also finds the appraisal to be persuasive for the appraisers: have experience in appraising and assessing property; personally inspected the subject property; estimated a highest and best use for the property; and utilized market data in undertaking the sales comparison approach to value, while making adjustments to the comparables where necessary.

In contrast, the Board finds that the board of review submitted raw, unadjusted sales data, while indicating not warranting whether the data was reliable or accurate.

Therefore, the Board finds that the subject property contained a market value of \$225,000. Since the market value of the subject has been established, the Cook County Ordinance level of assessment for Class 5b, industrial property of 36% will apply. Therefore, the Board finds that a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
