

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Lillie Kinnard  
DOCKET NO.: 08-27997.001-R-1  
PARCEL NO.: 29-15-302-030-0000

The parties of record before the Property Tax Appeal Board are Lillie Kinnard, the appellant, by attorney Brian S. Maher of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$4,364  
**IMPR:** \$3,316  
**TOTAL:** \$7,680

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a multi-level dwelling of frame and masonry construction. The dwelling is 42 years old and has 1,159 square feet of living area with a partial finished basement, central air conditioning, and a two-car garage. The property has a 7,274 square foot site and is located in South Holland, Thornton Township, Cook County.

The appellant's appeal is based on overvaluation. In support of this argument, the appellant submitted evidence disclosing the subject property was purchased on January 28, 2009, for a price of \$80,000 or \$69.03 per square foot of living area, including land. The appellant completed Section IV - Recent Sale Data of the residential appeal form and disclosed that the property was sold using a realtor, that the property had been advertised for sale using the multiple listing service, and that the seller's mortgage was not assumed. In a letter dated August 18, 2009, the appellant's attorney stated: "That on January 28, 2009, the petitioner purchased the subject property in an arms [sic] length transaction from an unrelated party for a total consideration of \$80,000." To further document the transaction, the appellant submitted copies of the sales contract and the settlement statement. The appellant's attorney requested that the subject's assessment be reduced to \$6,672.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$13,461 was disclosed. The subject's assessment reflects a market value of \$140,219 or \$120.98 per square foot of living area, including land, when applying the 2008 three-year average median level of assessments for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 9.60% as determined by the Illinois Department of Revenue.

In support of the assessment, the board of review submitted information on four equity comparables, one of which was a sale. The comparable property that sold (comparable #1) has a 7,436 square foot site and a multi-level dwelling of frame and masonry construction. Comparable #1 has the same assigned neighborhood code as the subject property and is located in the same tax block as the subject. Comparable #1 is 42 years old and contains 1,159 square feet of living area with a partial finished basement, central air conditioning, and a two-car garage. Comparable #1 sold in May 2005 for \$162,000 or \$139.78 per square foot of living area, including land. The board of review also submitted a list of twenty properties that sold from 1991 to 2008 for prices ranging from \$84,000 to \$189,000. Descriptive evidence for these sale properties was not provided. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. Fair cash value is defined in the Property Tax Code as "[t]he amount for which a property can be sold in the due course of business and trade, not under duress, between a willing buyer and a willing seller." (35 ILCS 200/1-50). The Supreme Court of Illinois has construed "fair cash value" to mean what the property would bring at a voluntary sale where the owner is ready, willing, and able to sell but not compelled to do so, and the buyer is ready, willing, and able to buy but not forced to do so. Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d 428 (1970). A contemporaneous sale between two parties dealing at arm's length is not only relevant to the question of fair cash value but practically conclusive on the issue on whether the assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). Furthermore, the sale of a property during the tax year in question is a relevant factor in considering the validity of the assessment. Rosewell v. 2626 Lakeview Limited Partnership, 120 Ill.App.3d 369, 375 (1<sup>st</sup> Dist. 1983). When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3<sup>rd</sup> Dist. 2002); 86

Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. (86 Ill.Admin.Code §1910.65(c)). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value in the record is the sale of the subject property on January 28, 2009, for a price of \$80,000. The appellant's attorney provided evidence demonstrating the sale had many characteristics of an arm's length transaction: Counsel stated that the parties to the transaction were unrelated; the property was sold using a realtor; and the property had been advertised for sale using the multiple listing service. The subject property has an assessment of \$13,461 that reflects a market value of \$140,219. The Board finds the subject's purchase price is less than the market value reflected by the assessment.

The Board finds the board of review did not present any evidence to challenge the arm's length nature of the transaction or to refute the contention that the purchase price was reflective of market value. The board of review submitted four equity comparables and a sale price for one of the comparables. Comparable #1 sold in May 2005 for \$162,000 or \$139.78 per square foot of living area, including land. The Board gives no weight to the board of review's equity evidence as it is not responsive to the appellant's overvaluation argument. Although the board of review submitted a sale price for one of their equity comparables, comparable #1's May 2005 sale date was not as proximate to the January 1, 2008 assessment date as the sale of the subject property on January 28, 2009. Finally, the Board gives no weight to the board of review's listing of sale properties. These sales lacked the descriptive evidence that would have helped to determine how similar they were to the subject property.

Based on this record the Board finds the subject property had a market value of \$80,000 as of January 1, 2008. Since market value has been determined, the 2008 three year average median level of assessments for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 9.60% shall apply. (86 Ill.Admin.Code §1910.50(c)(1)/(2)).

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
