

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Gabrielse
DOCKET NO.: 08-28161.001-R-1
PARCEL NO.: 24-30-204-001-0000

The parties of record before the Property Tax Appeal Board are David Gabrielse, the appellant, by attorney Sonja R. Johnson, of Much Shelist in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 13,784
IMPR.: \$ 21,396
TOTAL: \$ 35,180

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of 20,272 square feet of land improved with a 15-year old, two-story, frame, single-family dwelling. The improvement contains two full and one half-baths, two fireplaces, and a two-car garage.

The appellant argued that the market value of the subject property is not accurately reflected in the property's assessed valuation as the bases of this appeal.

In support of the market value argument, the appellant submitted documentation of the subject's recent sale as well as a residential appraisal report of the subject property. A copy of the subject's receipt of judicial sale reflects that the subject was purchased on January 20, 2009 for a price of \$366,457 between unrelated parties. In addition, the appellant submitted a copy of a residential appraisal report with an effective date

of August 26, 2009. The appraiser estimated a market value for the subject of \$360,000, based upon development of the cost and sales comparison approaches to value. Moreover, the appraisal included a building schematic indicating that the subject contains 3,204 square feet of living area based upon a personal inspection.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's total assessment was \$51,712. The subject's assessment reflects a market value of \$538,667 using the Illinois Department of Revenue median level of assessment for class 2, residential property of 9.60% for tax year 2008.

In addition, the board of review submitted detailed descriptive and assessment data on four suggested equity comparables. These properties ranged in improvement assessments from \$11.88 to \$13.84 per square foot. Moreover, the grid analysis indicated that property #4 sold in February, 2006, for a price of \$515,000. Based upon this evidence, the board requested confirmation of the subject's assessment.

After considering the arguments and reviewing the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. After submission of evidence, the parties waived the right to hearing.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331Ill.App.3d 1038 (3rd Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the Board concludes that the appellant has met this burden and that a reduction is warranted.

In determining the fair market value of the subject property, the Board thoroughly considered the parties' evidence and finds the best evidence to be the subject's recent purchase which is supported by the appellant's appraisal. The Board finds that the subject sold on January 20, 2009 for a price of \$366,457. The Board also finds the appraisal supports this sale price while the appraiser inspected the subject property and developed both the cost and sales comparison approaches to value in

estimating the subject's market value. Moreover, market data was used to obtain improved sale comparables while providing sufficient detail regarding each sale as well as appropriate adjustments, where necessary. Further, the Board finds that the best evidence of building size was reflected within this appraisal.

The Board further finds that the board of review failed to proffer sufficient market data to support the subject's valuation.

Therefore, the Board finds that the subject property contained a market value of \$366,457 for tax year 2008. Since the market value of the subject has been established, the median level of assessment as determined by the Illinois Department of Revenue for class 2, residential property of 9.60% will apply. Therefore, the Board finds that a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
