

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chul Kim
DOCKET NO.: 08-28221.001-R-1
PARCEL NO.: 04-09-215-004-0000

The parties of record before the Property Tax Appeal Board are Chul Kim, the appellant, by attorney Stephanie Park of Park & Longstreet, P.C. in Rolling Meadows; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$8,424
IMPR.: \$48,428
TOTAL: \$56,852**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction containing 2,388 square feet of living area. The dwelling is 50 years old. Features of the home include a full basement finished with a recreation room and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on twelve comparable properties described as two-story masonry or frame and masonry dwellings that range in age from 3 to 58 years old. The comparable dwellings range in size from 2,034 to 2,714 square feet of living area. Six comparables have a partial unfinished basement and one comparable has a partial basement finished with a recreation room. Two comparables have a full unfinished basement and two comparables have a full basement finished with a recreation room. One comparable has a concrete slab foundation. Nine comparables have central air conditioning and eight comparables have a fireplace. Eight comparables have a 2-car garage and four comparables have a 1-car garage. The comparables have improvement assessments ranging from \$12.99 to \$19.13 per square foot of living area. The subject's improvement assessment is \$20.28 per square foot of living area. Based on

this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame and masonry dwellings that range in age from 53 to 57 years old. The dwellings range in size from 2,314 to 2,584 square feet of living area. Two comparables have partial unfinished basements, one comparable has a full unfinished basement and one comparable has a crawl-space foundation. Each comparable has central air conditioning and three comparables have a fireplace. Two comparables have a 2-car garage and two comparables have a 1-car garage. These properties have improvement assessments ranging from \$20.01 to \$21.23 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds comparables #3, #6 and #12 submitted by the appellant and comparables #1, #2 and #3 submitted by the board of review were most similar to the subject in location, size, and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$17.90 to \$21.23 per square foot of living area. The subject's improvement assessment of \$20.28 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
