

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Anna Robles  
DOCKET NO.: 08-28241.001-R-1  
PARCEL NO.: 26-18-213-057-0000

The parties of record before the Property Tax Appeal Board are Anna Robles, the appellant, by attorney Lisa A. Marino of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$2,944  
IMPR.: \$10,887  
TOTAL: \$13,831**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a one-story dwelling of masonry construction containing 1,006 square feet of living area. The dwelling is 51 years old. Features of the home include a full unfinished basement.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as either 1 or 1.5-story frame or masonry dwellings that range in age from 48 to 111 years old. The comparable dwellings range in size from 1,194 to 1,512 square feet of living area. Features include 1 to 2-car garages. The appellant did not include any data concerning basements for the comparables. The comparables have improvement assessments ranging from \$8,596 to \$9,892 or from \$6.13 to \$8.14 per square foot of living area. The subject's improvement assessment is \$10,877 or \$10.82 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to reflect the average per square foot assessment of the three comparables of \$7.16.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story

masonry dwellings that range in age from 47 to 52 years old. The dwellings range in size from 1,005 to 1,033 square feet of living area. Features include full unfinished basements. Two of the comparables have one-car garages. The properties have improvement assessments ranging from \$10,965 to \$11,237 or from \$10.87 to \$11.18 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties to the appeal submitted a total of seven comparables for the Board to consider. The Board finds the comparables submitted by the board of review were most similar to the subject in size, style, exterior construction and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$10.87 to \$11.18 per square foot of living area. The subject's improvement assessment of \$10.82 per square foot of living area is below the range established by the most similar comparables. The Property Tax Appeal Board gave diminished weight to the comparables submitted by the appellant. Two of the comparables are 1.5-story residences; a different style than the 1-story subject. In addition, these two comparables are 108 and 111 years old, respectively. The subject is 51 years old. Finally, the appellant did not submit data concerning the comparables' foundation construction. Without knowing if the comparables had full basements like the subject, the Property Tax Appeal Board was unable to accurately compare the comparables to the subject property. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
