

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Rey Gonzalez
DOCKET NO.: 08-28806.001-R-1
PARCEL NO.: 27-18-104-004-0000

The parties of record before the Property Tax Appeal Board are Rey Gonzalez, the appellant, by attorney Patrick J. Hanlon, of Ungaretti & Harris LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$15,948
IMPR.: \$45,508
TOTAL: \$61,456**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 1-story dwelling of masonry construction containing 2,855 square feet of living area. The dwelling is 10 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a 3-car garage. The property has a 24,920 square foot site and is located in Orland Park, Orland Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on three comparable properties described as 1-story dwellings of masonry construction that range in size from 3,421 to 3,727 square feet of living area. The dwellings are each 13 years old. Each comparable has the same neighborhood code as the subject property. Features of the comparables include full unfinished basements, central air conditioning, 1 or 2 fireplaces and 3-car garages. The comparables have improvement assessments ranging from \$38,964 to \$55,055 or from \$11.39 to \$15.73 per square foot of living area. The subject's improvement assessment is \$45,508 or \$15.94 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$35,402 or \$12.40 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with 1-story dwellings of masonry construction that range in size from 2,329 to 3,180 square feet of living area. The dwellings range in age from 7 to 9 years. Each has the same neighborhood code as the subject property. Features of the comparables include full basements, one with finished area, central air conditioning and 3-car garages. Three comparables feature fireplaces. These properties have improvement assessments ranging from \$41,014 to \$53,392 or from \$16.79 to \$17.61 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds all three of the appellant's comparables and the board of review comparables #2 and #3 differed substantially from the subject in size and/or features. Therefore these comparables received less weight in the Board's analysis. The Board further finds the board of review comparables #1 and #4 are the most similar to the subject in location, size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of \$16.79 and \$16.83 per square foot of living area. The subject's improvement assessment of \$15.94 per square foot of living area falls below the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's improvement assessment is not justified.

After review of all land comparables submitted by both parties, the Board finds the land comparables range from \$.44 to \$.80 per square foot of land area. The subject's land assessment of \$.64 falls within the range of these comparables. Therefore no reduction of the subject's land assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
