

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Adam Kadziola  
DOCKET NO.: 08-28922.001-C-1  
PARCEL NO.: 15-05-101-073-0000

The parties of record before the Property Tax Appeal Board are Adam Kadziola, the appellant, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 27,424  
**IMPR.:** \$ 64,376  
**TOTAL:** \$ 91,800

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 19,045 square foot parcel of land improved with a 40-year old, one-story, industrial building with approximately 6,000 square feet of gross building area. It is currently being used as a window and roofing company. The appellant, via counsel, argued that the market value of the subject property is not accurately reflected in the property's assessed valuation as the basis of this appeal.

In support of the market value argument, the appellant submitted an appraisal co-authored by Brian M. Rubin, a State of Illinois associate real estate appraiser, and George K. Stamas, a State of Illinois certified general real estate appraiser. Rubin personally inspected the interior and exterior of the subject property and indicated the subject has an estimated market value of \$255,000 as of January 1, 2008. The appraisers used the sales comparison approach to value to arrive at market value and determined the highest and best use to be its current use.

Under the sales comparison approach, the appraiser analyzed the sales of five one-story, masonry industrial buildings located within the subject's market. The properties contain between 7,549 and 14,014 square feet of building area. The comparables sold from July 2008 to March 2009 for prices ranging from \$231,000 to \$575,000, or from \$28.59 to \$44.64 per square foot of building area, including land. The appraisers adjusted each of the comparables for pertinent factors. Based on the similarities and differences of the comparables when compared to the subject, the appraisers estimated a value for the subject under the sales comparison approach of \$42.50 per square foot of building area, including land or \$255,000, rounded.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's total assessment was \$104,390. This assessment reflects a market value of \$291,664 using the level of assessment of 36% for Class 5b property as contained in the Cook County Real Property Assessment Classification Ordinance. The board also submitted raw sales information on a total of six comparables that sold between August 1998 and June 2009 for prices ranging from \$269,000 to \$520,000, or from \$53.80 to \$91.16 per square foot of building area, including land. No adjustments were made for location, size, age or amenities. In addition, the board of review submitted a map showing the location of the sales comparables in relation to the subject property. As a result of its analysis, the board requested confirmation of the subject's assessment.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

When overvaluation is claimed, the appellant has the burden of proving the value of the property by a preponderance of the evidence. Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 339 Ill. App. 3d 529, 545 (1st Dist. 2002); National City Bank of Michigan/Illinois v. Prop. Tax Appeal Bd., 331 Ill. App. 3d 1038, 1042 (3d Dist. 2002) (citing Winnebago Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 313 Ill. App. 3d 179 (2d Dist. 2000)); 86 Ill. Admin. Code § 1910.63(e). Proof of market value may consist of an appraisal, a recent arm's-length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. Calumet Transfer, LLC v. Prop. Tax Appeal Bd., 401 Ill. App. 3d 652, 655 (1st Dist. 2010); 86 Ill. Admin. Code. § 1910.65(c). Having considered the evidence presented, the Board finds that a reduction is warranted.

In determining the fair market value of the subject property, the Board finds the best evidence to be the appellant's appraisal. The appellant's appraisers utilized the sales comparison approach to value in determining the subject's market value. The Board finds this appraisal to be persuasive for the appraisers: have experience in appraising; personally inspected the subject property and reviewed the property's history; estimated a highest

and best use for the subject property; utilized appropriate market data in undertaking the sales comparison approach to value; and lastly, used similar properties in the sales comparison approach while providing sufficient detail regarding each sale as well as adjustments that were necessary. The Board gives little weight to the board of review's comparables as the information provided was raw sales data with no adjustments made.

Therefore, the Board finds that the subject property had a market value of \$255,000 for the 2008 assessment year. Since the market value of the subject has been established, the Cook County Real Property Classification Ordinance level of assessments for Cook County Class 5b property of 36% will apply. In applying this level of assessment to the subject, the total assessed value is \$91,800 while the subject's current total assessed value is above this amount at \$104,999. Therefore, the Board finds that a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
