

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Anthony Lapasso
DOCKET NO.: 08-28963.001-R-1
PARCEL NO.: 04-36-314-010-0000

The parties of record before the Property Tax Appeal Board are Anthony Lapasso, the appellant, by attorney Sonja R. Johnson, of Much Shelist in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 13,260
IMPR.: \$ 46,432
TOTAL: \$ 59,692

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of an 11,050 square foot parcel improved with a 57-year-old, one-story, single-family dwelling of masonry construction containing 1,861 square feet of living area and located in Northfield Township, Cook County. Features of the residence include two full bathrooms, a full-finished basement, central air-conditioning, a fireplace and a two-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of one-story, single-family dwellings of frame, masonry or frame and masonry construction located within four blocks of the subject. The

improvements range in size from 1,943 to 2,292 square feet of living area and range in age from 55 to 80 years old. The comparables contain two or two and one-half bathrooms. Two comparables have an unfinished basement, three comparables contain central air-conditioning as well as a fireplace and three comparables have a one-car or two-car garage. The improvement assessments range from \$11.91 to \$21.36 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$59,692. The subject's improvement assessment is \$46,432 or \$24.95 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with one-story, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,964 to 2,210 square feet of living area and range in age from 50 to 57 years old. The comparables contain one and one-half, two or two and one-half bathrooms, a finished or unfinished basement and a multi-car garage. Two comparables have central air-conditioning and three comparable have fireplaces. The improvement assessments range from \$23.57 to \$30.62 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparable one and the board of review's comparables one and two to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, design, amenities, age and location and have improvement assessments ranging from \$11.91 to \$30.62 per square foot of living area. The subject's per square foot improvement assessment of \$24.95 falls within the range established by these properties. The Board finds the five remaining comparables less similar to the subject in improvement size and/or exterior construction and accorded less weight. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
