

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Rafael Campanini
DOCKET NO.: 08-29247.001-R-1
PARCEL NO.: 14-31-400-036-0000

The parties of record before the Property Tax Appeal Board are Rafael Campanini, the appellant, by attorney Howard W. Melton of Howard W. Melton and Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$12,840
IMPR.: \$66,549
TOTAL: \$79,389**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with two dwellings on one parcel. Dwelling #1 (subject) is a multi-family dwelling of masonry construction containing 2,640 square feet of living area¹. The dwelling is 119 years old. Features of the home include a full basement finished with a recreation room.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on eight comparable properties, however, the appellant provided detailed descriptive information on only four of these comparables. The Board will give less weight to the comparables that do not have descriptive information. The four remaining comparables are described as multi-family frame or masonry dwellings that range in age from 100 to 116 years old. The comparable dwellings range in size from 2,226 to 5,013 square feet of living area. Each comparable has a full basement of which three basements are finished with an apartment. One comparable has central air conditioning. The comparables have improvement assessments

¹ The property record card indicates 2,640 square feet of living area for dwelling #1 and 748 square feet of living area for dwelling #2. For purposes of this case we will only be looking at dwelling #1.

ranging from \$11.59 to \$21.79 per square foot of living area. The subject's improvement assessment is \$16.45 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of multi-family masonry dwellings that are 96 or 116 years old. The dwellings range in size from 1,900 to 3,924 square feet of living area. Two comparables have a full unfinished basement and one comparable does not have a basement. Two comparables have a 2-car garage. These properties have improvement assessments ranging from \$14.22 to \$16.66 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by the board of review were most similar to the subject in location, size, exterior construction and features. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$14.22 to \$16.66 per square foot of living area. The subject's improvement assessment of \$16.45 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
