

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tara Steinschneider
DOCKET NO.: 08-29250.001-R-1
PARCEL NO.: 17-06-113-033-0000

The parties of record before the Property Tax Appeal Board are Tara Steinschneider, the appellant, by attorney Howard W. Melton of Howard W. Melton and Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$28,908
IMPR.: \$65,680
TOTAL: \$94,588**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with two dwellings on one parcel. Dwelling #1 (subject) is a multi-family dwelling of masonry construction containing 4,486 square feet of living area¹. The dwelling is 122 years old. Features of the home include a full basement finished with an apartment, a fireplace and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted a letter discussing three properties with no information. However, the appellant provided detailed descriptive information on four comparable properties. The Board will give less weight to the three comparables that do not have descriptive information. The four detailed comparables are described as multi-family masonry dwellings that range in age from 102 to 118 years old. The comparable dwellings range in size from 4,620 to 5,642 square feet of living area. Each comparable has a full basement of

which one is finished with an apartment. Three comparables have a garage ranging from 2-car to 4-car. The comparables have improvement assessments ranging from \$9.08 to \$12.45 per square foot of living area. The subject's improvement assessment is \$9.87 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of multi-family masonry dwellings that range in age from 118 to 123 years old. The dwellings range in size from 4,802 to 5,010 square feet of living area. Two comparables have a full basement of which one basement is finished with an apartment. One comparable does not have a basement. One comparable has central air conditioning and a fireplace. Two comparables have a 1-car or 2-car garage. These properties have improvement assessments ranging from \$11.79 to \$12.59 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by both parties were similar to the subject in location, size, style, exterior construction and/or age. These comparables had improvement assessments that ranged from \$9.08 to \$12.59 per square foot of living area. The subject's improvement assessment of \$9.87 per square foot of living area falls within the range established by the similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
