

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Rudolf Mayer
DOCKET NO.: 08-29252.001-R-1
PARCEL NO.: 03-23-308-027-0000

The parties of record before the Property Tax Appeal Board are Rudolf Mayer, the appellant(s), by attorney Arnold G. Siegel, of Siegel & Callahan, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 14,400
IMPR.: \$ 68,072
TOTAL: \$ 82,472

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 20,000 square foot parcel of land improved with an 18 year old, two story, masonry, single family dwelling. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

The appellant lists the subject as containing a 3,497 square feet of living area whereas the board of review lists the subject at 4,065 square feet of living area.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of eleven properties suggested as comparable and located within the subject's neighborhood. The properties are described as two story, masonry or frame and masonry dwellings. The properties range: in age from 17 to 21 years; in size from 2,978 to 3,785 square feet of living area; and in improvement assessments from \$13.69 to \$17.36 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$68,072 was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on

four properties suggested as comparable and located within the subject's neighborhood. The properties are described as two story, masonry or frame/masonry, and single-family dwellings. The properties range: in age from 9 to 21 years; in size from 3,816 to 4,639 square feet of living area; and in improvement assessments from \$16.90 to \$17.83 per square foot of living area. In addition, the board of review also submitted the property characteristic printout evidencing the property's square footage as 4,065 square feet. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has met this burden.

As to the subject's square footage, the Board finds the appellant failed to submit any evidence to show that the county has incorrectly described the subject's square footage. Therefore the Board finds the subject contains 4,065 square feet of living area. This square footage reflects an assessment for the improvement of \$68,072 or \$16.75 per square foot.

The parties presented a total of fifteen properties suggested as comparable to the subject. The PTAB finds the board of review's comparables #1 and #2 and the appellant's comparables #6, and #10, most similar to the subject in location, size, design, exterior construction and age. The properties are described as two story, masonry or frame/masonry dwellings. The properties range: in age from 18 to 21 years; in size from 3,732 to 3,839 square feet of living area; and in improvement assessments from \$16.44 to \$17.34 per square foot of living area. In comparison, the subject's improvement assessment of \$16.75 per square foot of living area is within the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
