

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Gay
DOCKET NO.: 08-29266.001-R-1
PARCEL NO.: 20-02-313-045-0000

The parties of record before the Property Tax Appeal Board are John Gay, the appellant, by attorney Howard W. Melton of Howard W. Melton and Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$7,090
IMPR.: \$75,404
TOTAL: \$82,494**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a three-story dwelling of masonry construction containing 5,386 square feet of living area. The dwelling is 1 year old. Features of the home include a partial basement finished with a recreation room, central air conditioning and a 3-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted a letter with limited information on one additional comparable property. However, the appellant provided detailed descriptive information on four of these comparable properties. The Board will give less weight to the comparable that does not have the detailed information. The four remaining comparables are described as two-story or three-story masonry dwellings that range in age from 103 to 113 years old. The comparable dwellings range in size from 5,097 to 6,734 square feet of living area. Each comparable has a full basement of which one basement is finished with a recreation room. One comparable has two fireplaces. Each comparable has a garage ranging from 1-car to 4-car. The comparables have improvement assessments ranging from \$4.00 to \$5.24 per square foot of living area. The subject's improvement assessment is \$14.00 per square foot of living area. Based on

this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of two-story or three-story masonry or frame and masonry dwellings that range in age from 1 to 119 years old. The dwellings range in size from 1,440 to 5,755 square feet of living area. Each comparable has a full basement of which one basement is finished with a recreation room. Two comparables have central air conditioning, one comparable has two fireplaces and two comparables have a 2-car garage. These properties have improvement assessments ranging from \$5.26 to \$16.81 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The appellant failed to prove lack of uniformity by clear and convincing evidence. The appellant submitted four dwellings, each of which is more than 100 years old, while the subject is only 1 year old. The board of review provided two comparables more similar in age, but one is much less than ½ the size of the subject in living area square footage. The only similar comparable is board of review comparable #1. This comparable has an improvement assessment of \$15.46 per square foot of living area. The subject's improvement assessment of \$14.00 per square foot of living area is below the only similar comparable. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
