

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Louis Felice
DOCKET NO.: 08-29522.001-R-1
PARCEL NO.: 29-16-123-036-0000

The parties of record before the Property Tax Appeal Board are Louis Felice, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 2,500
IMPR: \$ 5,406
TOTAL: \$ 7,906

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story, multi-family building of masonry construction containing 2,550 square feet of building area. The building is 81 years old. Features of the building include two apartment units, a full unfinished basement, and a two-car garage. The subject is classified as a class 2-11 residential property under the Cook County Real Property Assessment Classification Ordinance and is located in Phoenix, Thornton Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story, multi-family buildings of frame construction. The comparable properties all have the same neighborhood and classification codes as the subject. The comparable buildings range in age from 49 to 115 years and contain from 1,200 to 1,856 square feet of building area. Each building has either two or three apartment units. Two of the comparables have garages, and one has central air conditioning. One comparable building has a slab foundation, and two have unfinished basements, either full or partial. The comparables have improvement assessments ranging from \$1,751 to \$3,953 or \$1.23 to \$2.13 per square foot of building area. The subject's improvement assessment is \$5,406 or \$2.12 per square

foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$4,100 or \$1.61 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$7,906 was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story, multi-family buildings of frame or masonry construction. The comparables all have the same neighborhood and classification codes as the subject. The comparable buildings range in age from 81 to 104 years and contain from 2,208 to 3,080 square feet of building area. Each building has either two or three apartment units. Three comparables have full unfinished basements, and one has a slab foundation. One comparable has a two-car garage. These properties have improvement assessments ranging from \$5,378 to \$8,794 or \$2.15 to \$2.90 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparables are considerably smaller in size than the subject and received reduced weight in the Board's analysis. The Board finds the comparables submitted by the board of review are closer to the subject in size. They are also generally similar to the subject in other respects as well. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$2.15 to \$2.90 per square foot of building area. The subject's improvement assessment of \$2.12 per square foot of building area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
