

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Smith  
DOCKET NO.: 08-29784.001-R-1  
PARCEL NO.: 29-18-422-003-0000

The parties of record before the Property Tax Appeal Board are David Smith, the appellant, by attorney Patrick J. Hanlon, of Ungaretti & Harris LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$1,428  
IMPR: \$5,612  
TOTAL: \$7,040**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a 1-story dwelling of masonry construction containing 1,006 square feet of living area. The dwelling is 83 years old. Features of the home include a full unfinished basement. The property has a 3,968 square foot site and is located in Harvey, Thornton Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on five comparable properties described as 1 or 1½-story dwellings of masonry, frame, or frame and masonry construction that range in size from 1,353 to 1,619 square feet of living area. The dwellings range in age from 82 to 90 years. Each comparable has the same neighborhood code as the subject property. Four of the comparables feature full or partial unfinished basements and one is on a crawl-space foundation. Two comparables feature central air conditioning and two have 2-car garages. The comparables have improvement assessments ranging from \$5,287 to \$6,742 or from \$3.42 to \$4.18 per square foot of living area. The subject's improvement assessment is \$5,612 or \$5.58 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$4,124 or \$4.10 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with 1-story dwellings of masonry construction that range in size from 1,055 to 1,089 square feet of living area. They range in age from 81 to 90 years. Each has the same neighborhood code as the subject property. Features of the comparables include full unfinished basements. Two have 1½ or 2-car garages. These properties have improvement assessments that range from \$6,140 to \$6,760, or from \$5.64 or \$6.41 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds all of the appellant's comparables differed substantially from the subject in size, style, exterior construction and/or features. Therefore these comparables received less weight in the Board's analysis. The Board further finds all of the board of review comparables are the most similar to the subject in location, size, style, exterior construction and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$5.64 to \$6.41 per square foot of living area. The subject's improvement assessment of \$5.58 per square foot of living area falls below the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
