

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Smith
DOCKET NO.: 08-29786.001-R-1
PARCEL NO.: 32-36-106-029-0000

The parties of record before the Property Tax Appeal Board are David Smith, the appellant, by attorney Patrick J. Hanlon, of Ungaretti & Harris LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,041
IMPR: \$6,356
TOTAL: \$9,397

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 1-story dwelling of frame construction containing 1,244 square feet of living area. The dwelling is 46 years old. Features of the home include a full basement with finished area¹ and a 2-car garage. The property has a 7,603 square foot site and is located in Sauk Village, Bloom Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on three comparable properties described as 1 or 1½-story dwellings of frame construction that range in size from 1,484 to 1,764 square feet of living area. The dwellings range in age from 38 to 52 years. Each comparable has the same neighborhood code as the subject property. One of the comparables features a partial unfinished basement and two are on slab foundations. Two comparables have 2 or 3½-car garages. The comparables have improvement assessments ranging from \$3,287 to \$6,927 or from \$1.86 to \$4.67 per square foot of living area. The subject's improvement assessment is \$6,356 or

¹ The appellant claims the subject's basement is not finished but did not submit any evidence to support the claim. The board of review contends the subject's basement is finished and submitted the property record card to support the claim. For purposes of this appeal, the Board will accept the board of review's claim that the subject's basement is finished.

\$5.11 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$3,732 or \$3.00 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with 1-story dwellings of frame construction that range in size from 1,125 to 1,136 square feet of living area. The dwellings range in age from 37 to 40 years. Each has the same neighborhood code as the subject property. Features of the comparables include full or partial basements with finished area and 1 or 2-car garages. Two comparables feature central air conditioning. These properties have improvement assessments ranging from \$7,471 to \$8,126 or from \$6.58 to \$7.22 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds all three of the appellant's comparables differed substantially from the subject in size, style and/or features. Therefore these comparables received less weight in the Board's analysis. The Board further finds all four of the board of review comparables are the most similar to the subject in location, size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$6.58 to \$7.22 per square foot of living area. The subject's improvement assessment of \$5.11 per square foot of living area falls below the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
