

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph & Jane Gallo
DOCKET NO.: 08-30102.001-R-1
PARCEL NO.: 15-01-110-011-0000

The parties of record before the Property Tax Appeal Board are Joseph & Jane Gallo, the appellants, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 13,971
IMPR.: \$ 82,100
TOTAL: \$ 96,071

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 3,136 square feet of living area. The dwelling is 71 years old. Features of the home include a partial unfinished basement, central air conditioning, two fireplaces, and a two and one-half car attached garage. The subject is classified as a class 2-06 residential property under the Cook County Real Property Assessment Classification Ordinance and is located in River Forest, River Forest Township, Cook County.

The appellants' appeal is based on unequal treatment in the assessment process. The appellants submitted information on four comparable properties described as two-story masonry or frame and masonry dwellings that have the same assigned neighborhood code as the subject. Two of the comparables are located on the same tax block as the subject, and the other two comparables are located seven blocks from the subject. The comparable dwellings range in age from 70 to 82 years old, and they range in size from 2,953 to 3,434 square feet of living area. Three comparables have a full finished basement, and one has a full unfinished basement. Each comparable has a garage; three comparables have central air conditioning; and three have one or two fireplaces. The comparables have improvement assessments ranging from \$23.10 to \$23.73 per square foot of living area. The subject's

improvement assessment is \$26.18 per square foot of living area. Based on this evidence, the appellants requested that the subject's improvement assessment be reduced to \$73,194 or \$23.34 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame or masonry dwellings that range in age from 70 to 80 years old. The comparables have the same assigned neighborhood and classification codes as the subject. One of the comparables is located across the street from the subject, and the other three are located one-quarter mile from the subject. The dwellings range in size from 2,887 to 3,198 square feet of living area. Each comparable has a full finished basement, one or two fireplaces, and a garage. Three dwellings have central air conditioning. These properties have improvement assessments ranging from \$27.54 to \$29.68 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellants contend unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellants have not met this burden.

The Board finds that all of the eight comparables submitted by both parties were very similar to the subject in age, design, location, and size. In addition, five comparables had masonry exterior construction like the subject. The eight comparables had improvement assessments that ranged from \$23.10 to \$29.68 per square foot of living area. The subject's improvement assessment of \$26.18 per square foot of living area falls within the range established by these comparables. The Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
