

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Susan & Dan Reinhardt
DOCKET NO.: 08-30108.001-R-1
PARCEL NO.: 16-06-307-016-0000

The parties of record before the Property Tax Appeal Board are Susan & Dan Reinhardt, the appellants, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 13,251
IMPR.: \$ 58,128
TOTAL: \$ 71,379

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of stucco construction containing 2,412 square feet of living area. The dwelling is 95 years old. Features of the home include a full unfinished basement, central air conditioning, and a two and one-half car detached garage. The subject is classified as a class 2-06 residential property under the Cook County Real Property Assessment Classification Ordinance and is located in Oak Park, Oak Park Township, Cook County.

The appellants' appeal is based on unequal treatment in the assessment process. The appellants submitted information on four comparable properties described as two-story frame or frame and masonry dwellings that have the same assigned neighborhood code as the subject. The comparable dwellings range in age from 80 to 114 years old, and they range in size from 2,389 to 2,660 square feet of living area. One comparable has a full finished basement, and three comparables have unfinished basements, either full or partial. Each comparable has a two-car detached garage, and three dwellings have a fireplace. The comparables have improvement assessments ranging from \$17.19 to \$20.03 per square foot of living area. The subject's improvement assessment is \$24.10 per square foot of living area. Based on this evidence, the appellants requested that the subject's improvement

assessment be reduced to \$46,262 or \$19.18 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story stucco dwellings that range in age from 88 to 102 years old. The comparables have the same assigned neighborhood and classification codes as the subject. The dwellings range in size from 2,225 to 2,666 square feet of living area. Each comparable has a full unfinished basement and a detached garage. Three dwellings have a fireplace. These properties have improvement assessments ranging from \$24.22 to \$26.63 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellants contend unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellants have not met this burden.

Both parties presented assessment data on a total of eight equity comparables. All of the comparables submitted by both parties were very similar to the subject in age, style, size, and location; however, the Board finds the comparables submitted by the board of review were most similar to the subject in exterior construction. They were also very similar in foundation. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$24.22 to \$26.63 per square foot of living area. The subject's improvement assessment of \$24.10 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
