

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Patrick Usher
DOCKET NO.: 08-30165.001-R-1
PARCEL NO.: 18-07-105-025-0000

The parties of record before the Property Tax Appeal Board are Patrick Usher, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 44,844
IMPR.: \$ 210,679
TOTAL: \$ 255,523

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 5,739 square feet of living area. The dwelling is fourteen years old and is described as being of deluxe quality. Features of the home include a full finished basement, central air conditioning, three fireplaces, and a three-car attached garage. The subject is classified as a class 2-09 residential property under the Cook County Real Property Assessment Classification Ordinance and is located in Hinsdale, Lyons Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame, masonry, or frame and masonry dwellings that have the same assigned neighborhood code as the subject. The comparable dwellings range in age from 7 to 110 years old, and they range in size from 5,577 to 6,263 square feet of living area. Two comparables have a full finished basement, and two have a full unfinished basement. Each dwelling has central air conditioning and one to four fireplaces. Three comparables have an attached garage. The comparables have improvement assessments ranging from \$18.68 to \$35.84 per square foot of living area. The subject's improvement assessment is \$36.71 per square foot of living area. Based on this evidence,

the appellant requested that the subject's improvement assessment be reduced to \$148,984 or \$25.96 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from seven to twelve years old. The comparables have the same assigned neighborhood and classification codes as the subject. The dwellings range in size from 5,852 to 6,400 square feet of living area. Two comparables have a full unfinished basement, and two have finished basements, either full or partial. Each comparable has central air conditioning, one to three fireplaces, and an attached garage. These properties have improvement assessments ranging from \$37.12 to \$41.96 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables #1 through #3 were older than the subject and received reduced weight in the Board's analysis. The board of review's comparable #1 was somewhat larger than the subject and also received reduced weight. The Board finds the appellant's comparable #4 and the board of review's comparables #2 through #4 were very similar to the subject in age, size, and style. They were also generally similar in location and exterior construction. Due to their similarities to the subject, these four comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$35.84 to \$41.96 per square foot of living area. The subject's improvement assessment of \$36.71 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
