

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Caryn Carranza
DOCKET NO.: 08-30170.001-R-1
PARCEL NO.: 18-04-402-007-0000

The parties of record before the Property Tax Appeal Board are Caryn Carranza, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,720
IMPR.: \$ 38,329
TOTAL: \$ 45,049

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one and one-half story dwelling of masonry construction containing 1,512 square feet of living area. The dwelling is 88 years old. Features of the home include a full unfinished basement, a fireplace, and a one and one-half car detached garage. The subject is classified as a class 2-03 residential property under the Cook County Real Property Assessment Classification Ordinance and is located in La Grange, Lyons Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one or one and one-half story frame or masonry dwellings that have the same assigned neighborhood code as the subject. The comparables are located from two to seven blocks from the subject. The comparable dwellings range in age from 43 to 85 years old, and they range in size from 1,447 to 1,597 square feet of living area. Each dwelling has a full basement, one of which is finished. Each comparable has a garage; two have central air conditioning; and one has a fireplace. The comparables have improvement assessments ranging from \$24.90 to \$25.65 per square foot of living area. The subject's improvement assessment is \$34.53 per square foot of living area. Based on this evidence, the

appellant requested that the subject's improvement assessment be reduced to \$38,329 or \$25.35 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story frame or masonry dwellings that range in age from 43 to 85 years old. Two of the comparables presented by the board of review were comparables also submitted by the appellant. The comparables have the same assigned neighborhood and classification codes as the subject, and two were located in the same block as the subject. The dwellings range in size from 1,447 to 1,601 square feet of living area. Each dwelling has a full basement, two of which are finished. Each comparable has a garage; one has central air conditioning and two have a fireplace. These properties have improvement assessments ranging from \$25.25 to \$28.34 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

Both parties presented assessment data on a total of six equity comparables. The board of review's comparable #1 was the same property as the appellant's comparable #2, and the board of review's comparable #4 was the same property as the appellant's comparable #3. The appellant's comparable #3 and the board of review's comparables #2 and #3 were much newer than the subject and received reduced weight in the Board's analysis. The Board finds the appellant's comparables #1, #2, and #4 were most similar to the subject in size and age and were very similar in foundation. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$24.90 to \$25.65 per square foot of living area. The subject's improvement assessment of \$34.53 per square foot of living area falls above the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
