

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Alissa Klein & Sebastian Derza
DOCKET NO.: 09-04351.001-R-1
PARCEL NO.: 06-36-409-024

The parties of record before the Property Tax Appeal Board are Alissa Klein & Sebastian Derza, the appellants; and the DuPage County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the DuPage County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,770
IMPR.: \$73,380
TOTAL: \$83,150

Subject only to the State multiplier as applicable.

ANALYSIS

The subject parcel is improved with a 1-story brick condominium unit on a slab foundation. The dwelling is 30 years old and contains 1,601 square feet of living area. Features of the dwelling include central air conditioning, a fireplace and a 2-car garage. The subject is located in Hinsdale, York Township, DuPage County.

The appellants contend overvaluation based on the recent sale of the subject property. The appellants completed Section IV of the appeal form indicating the subject was purchased in an arm's length transaction on September 2, 2009 for a price of \$250,000 or \$156.15 per square foot of living area including land. The appellants claim the subject was purchased through a realtor, the property was advertised for sale through a multiple listing service and the local paper, the property had been on the market 43 days, and the sale was not between family or related corporations. To further document the sale, the appellants submitted a copy of the listing and a copy of the settlement statement disclosing the subject was purchased on August 13, 2009 for a price of \$250,000. Based on this record, the appellants requested the subject's assessment be reduced to \$83,333, which would reflect a market value of approximately \$250,000 at the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$97,520 was disclosed. The subject's total assessment reflects an estimated market value of \$293,205 or \$183.14 per square foot of living area, land included, using the 2009 three-year median level of assessments for DuPage County of 33.26% as determined by the Illinois Department of Revenue.

In support of the subject's assessment, the board of review submitted property record cards and a grid analysis of six comparable properties. Only one comparable was a sale, occurring in October 2005 for a price of \$315,000 or \$196.75 per square foot of living area including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds the evidence in the record supports a reduction in the subject's assessment.

The appellants contend the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal, the value must be proven by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). Proof of market value may consist of an appraisal of the subject property, a recent sale of the subject property or comparable sales. (86 Ill.Admin.Code Sec. 1910.65(c)). A contemporaneous sale between two parties dealing at arm's length is not only relevant to the question of fair cash value but practically conclusive on the issue on whether the assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). After an analysis of the evidence in the record, the Board finds a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value in the record is the sale of the subject property in September 2009 for a price of \$250,000. The subject property was advertised for sale and there was no indication the parties were related. The subject's total assessment reflects an estimated market value of \$293,205, which is greater than the purchase price. The board of review presented no evidence to indicate that the subject's sale was not an arm's length transaction. The Board also finds the board of review's one sale does not refute the appellants' overvaluation argument. The board of review's sale was dated, occurring in 2005, and not a reliable or credible indicator of the subject's value as of January 1, 2009. Based on this record, the Board finds the subject had a market value of \$250,000 as of its January 1, 2009 assessment date. Since market value has been established, the 2009 DuPage county three-year median level of assessments of 33.26% shall apply.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
