

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jinchao Paden
DOCKET NO.: 09-05967.001-R-1
PARCEL NO.: 09-16-410-020

The parties of record before the Property Tax Appeal Board are Jinchao Paden, the appellant; and the DuPage County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the DuPage County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$18,500
IMPR.: \$42,030
TOTAL: \$60,530**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject parcel is improved with a 2-story brick and frame condominium unit on a slab foundation. The dwelling contains 1,444 square feet of living area and was built in 1989. Features of the condominium include central air conditioning, a fireplace and a 1½-car attached garage. The condominium is located in Westmont, Downers Grove Township, DuPage County.

The appellant contends overvaluation based on the recent sale of the subject property. The appellant completed Section IV of the appeal form indicating the subject was purchased in an arm's length transaction on June 16, 2009 for a price of \$182,000 or \$126.04 per square foot of living area including land. The appellant claims the subject was purchased through a realtor, was advertised for sale through a multiple listing service, had been on the market 28 days, and the sale was not between family or related corporations. To further document the sale, the appellant submitted a copy of the listing sheet which disclosed an original listing price of \$189,000 and that the sale was an estate sale subject to approval by the court. The appellant also submitted a copy of the settlement statement disclosing the subject was purchased on June 16, 2009 for a price of \$182,000. Based on this record, the appellant requested the subject's assessment be reduced to \$60,666 which would reflect a market value of

approximately \$182,000 at the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$80,020 was disclosed. The subject's total assessment reflects an estimated market value of \$240,589 or \$166.61 per square foot of living area, land included, using the 2009 three-year median level of assessments for DuPage County of 33.26% as determined by the Illinois Department of Revenue.

In support of the subject's assessment, the board of review submitted a grid analysis of twelve comparable condominium units in the same complex as the subject ranging in size from 1,274 to 1,450 square feet of living area. Two feature partial basements. These comparables sold from January 2007 through June 2009 for prices ranging from \$200,000 to \$275,500 or from \$156.99 to \$201.83 per square foot of living area including land. The board of review also submitted a Real Estate Transfer Declaration which indicated the subject would be the buyer's principal residence, was advertised for sale, was not court ordered or in lieu of foreclosure, and was not between related individuals or related corporations. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds the evidence in the record supports a reduction in the subject's assessment.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal, the value must be proven by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). Proof of market value may consist of an appraisal of the subject property, a recent sale of the subject property or comparable sales. (86 Ill.Admin.Code Sec. 1910.65(c)). A contemporaneous sale between two parties dealing at arm's length is not only relevant to the question of fair cash value but practically conclusive on the issue on whether the assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). After an analysis of the evidence in the record, the Board finds a reduction in the subject's assessment is warranted.

The Board finds the board of review's sales data does not sufficiently refute the appellant's overvaluation argument. Although the board of review submitted comparable sales of other condominiums, the Board finds the board of review presented no evidence to indicate that the subject's sale was not an arm's length transaction. On the contrary, the Real Estate Transfer Declaration submitted by the board of review supports the arm's-length nature of the sale. The listing sheet did indicate that

the subject was sold "as-is" and needed some updating. Therefore, the Board finds the best evidence of market value in the record as of January 1, 2009 is the sale of the subject property in June 2009 for \$182,000. The subject's total assessment reflects an estimated market value of \$240,589 which is greater than its recent purchase price. Based on this record, the Board finds the subject had a market value of \$182,000 as of its January 1, 2009 assessment date. Since market value has been established, the 2009 DuPage county three-year median level of assessments of 33.26% shall apply.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
