

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Alberto Martinez  
DOCKET NO.: 09-20324.001-R-1  
PARCEL NO.: 10-25-207-031-0000

The parties of record before the Property Tax Appeal Board are Alberto Martinez, the appellant, by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 6,483  
**IMPR.:** \$ 25,778  
**TOTAL:** \$ 32,261

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a 66 year old, one-and-one-half story, frame and masonry, single-family dwelling. It contains 1,183 square feet of living area and is situated on a 6,825 square foot lot. Features include a crawl space, a two-car attached garage, and one bathroom.

The appellant, via counsel, appeared before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this claim, the appellant submitted descriptions and assessment information regarding three suggested comparable properties located within one block of the subject property. The suggested comparables are described as one or one-and-one-half-story, masonry or frame and masonry, single-family dwellings that range in age from 53 to 58 years old and range in size from 1,659 to 2,159 square feet of living area. Features include a full finished or unfinished basement, one or two bathrooms, and a one to two-car garage. These properties have improvement assessments that range from \$15.44 to \$17.73 per square foot of living area. The subject's

improvement assessment is \$21.79 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$25,778 or \$21.79 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information regarding three suggested comparable properties located in the subject's neighborhood code. The suggested comparables consist of one-and-one-half-story, frame and masonry, single-family dwellings that range in age from 53 to 66 years old and range in size from 1,162 to 1,279 square feet of living area. Features include a full or partial finished or unfinished basement, a one or two-car garage, and air conditioning. These properties have improvement assessments that range from \$21.77 to \$22.31 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of six comparable properties for the Board's consideration. The Board finds the comparables submitted by the board of review are the most similar to the subject in size, design, and style. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$21.77 to \$22.31 per square foot of living area. The subject's improvement assessment of \$21.79 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and no reduction in the subject's assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d. 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the

basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
