

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Susan Klock
DOCKET NO.: 09-20835.001-R-1
PARCEL NO.: 15-12-109-007-0000

The parties of record before the Property Tax Appeal Board are Susan Klock, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$8,542
IMPR.: \$73,781
TOTAL: \$82,323**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame construction containing 3,172 square feet of living area. The dwelling is 110 years old. Features of the home include a full basement finished with a recreation room, central air conditioning, a fireplace and a 1.5-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame, stucco, or masonry dwellings that range in age from 89 to 110 years old. The comparable dwellings range in size from 3,220 to 3,424 square feet of living area. Two comparables have a full basement of which one is finished with a recreation room and two comparables have a partial unfinished basement. Each comparable has a 2-car or a 2.5-car garage. Two comparables have central air conditioning and two comparables have one or two fireplaces. The comparables have improvement assessments ranging from \$18.80 to \$21.41 per square foot of living area. The subject's improvement assessment is \$23.26 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$82,323 was

disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame or frame and masonry dwellings that range in age from 88 to 110 years old. The dwellings range in size from 1,720 to 3,877 square feet of living area. Each comparable has central air conditioning, a fireplace and a full basement of which one is finished with a recreation room. Three comparables have a 2-car or 3-car garage. These properties have improvement assessments ranging from \$23.57 to \$27.78 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds comparables #1 and #2 submitted by the board of review to be dissimilar in size when compared to the subject. The Board gave less weight to appellant's comparables #1 and #4 due to their dissimilar features when compared to the subject. The Board finds comparables #2 and #3 submitted by the appellant and comparables #3 and #4 submitted by the board of review were more similar to the subject in size, exterior construction and features. These comparables had improvement assessments that ranged from \$18.87 to \$23.70 per square foot of living area. The subject's improvement assessment of \$23.26 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the appellant disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of

the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
